# MERITOR STANDARD FRICTION MATERIALS

## **MA212 Standard Truck/Tractor/Trailer FF 21,000 lb. GAWR / 165 AL**

MA212 is the standard Meritor 21,000 lb. gross axle weight rated (GAWR) brake lining for OEM production brakes. This proven material yields exceptional brake power and friction stability without sacrificing lining or drum wear. MA212 is the standard friction on Meritor trailer axles and is the lining of choice of many OEM vehicle manufacturers.

MA212 is recommended for truck, tractor, trailer and school bus applications. It performs well in hauling general cargo, grain and liquids in a variety of applications, including low boys and dump trucks – over general terrain. It can be used for over-the-highway applications or in stop-and-go urban driving.

MA212 is rated for 21,000 lb. GAWR at 165 AL (T30 chamber x 5.5” slack adjuster).

## **R301 Standard Truck/Tractor/Trailer FF 23,000 lb. GAWR / 180 AL**

R301 is the standard Meritor 23,000 lb. GAWR brake lining for OEM production brakes. This time-proven high-performance Meritor material is engineered for demanding applications where excellent wear characteristics are needed.

R301 is recommended for truck, tractor, trailer, school bus and heavy hauling applications such as refuse and construction. It can be used on- or off-highway in various terrain conditions.

R301 is rated for 23,000 lb. GAWR at 180 AL (T30 chamber x 6.0” slack adjuster).

## **MA312 Standard Truck/Tractor/Trailer FF 23,000 lb. GAWR / 180 AL**

MA312 provides superior stopping power needed in demanding heavy duty linehaul and vocational vehicle operations. MA312 friction material not only meets, but surpasses, FMVSS 121 requirements in combination with either full-cast or lightweight Meritor SteelLite X30™ brake drums.

MA312 is a premium, long-life material delivering exceptional performance in applications up to 23,000 GAWR. It offers service-life improvements of up to 20 percent over comparable products, reducing costs of maintenance, downtime and materials.

MA312 is ideally suited to truck, tractor, trailer and school bus applications. It is recommended for construction, refuse and other heavy hauling applications where sure stopping power is called for. It is designed to perform equally well in both on- and off-highway applications.

MA312 is rated for 23,000 lb. GAWR at 180 AL (T30 chamber x 6.0” slack adjuster).

## **R403 Severe-Duty Truck/Tractor/Trailer GG 26,000 lb. GAWR / 180 AL**

R403 is the Meritor 26,000 lb. GAWR brake lining for severe-duty applications. It has superior performance and fade resistance and dependable stopping capability in heavy-haul applications.

R403 is recommended for construction, refuse and other severe service applications, on- or off-highway, under various terrain conditions. It has a proven track record of recognized durability.

R403 is rated for 26,000 lb. GAWR at 180 AL (T30 chamber x 6.0” slack adjuster).

# MERITOR REDUCED STOPPING DISTANCE (RSD) FRICTION MATERIALS

## **MA1201 Steer Axle GG 12,500 lb. & 13,200 lb. GAWR / 132 AL**

Approved for RSD steer axle brakes on Daimler, Navistar and PACCAR vehicles using 15" x 5" (FMSI 4703) and 16-1/2" x 5" (FMSI 4720) Q Plus brakes. Also available for limited use on older model Meritor and all-makes brake applications. MA1201 is rated for both 12,500 lb. and 13,200 lb. Meritor steer axles using T24 brake chambers and 5.5" slack adjusters.

## **MA1501 Steer Axle GG 14,600 lb. GAWR / 132 AL**

Approved for aftermarket use on 14,600 lb. steer axles using 16-1/2" x 6" (FMSI 4715) Q Plus brakes. Can be used as an alternate material to replace MA1502. MA1501 is rated for 14,600 lb. Meritor steer axles using T24 brake chambers and 5.5" slack adjusters.

## **MA1502 Steer Axle GF 14,600 lb. GAWR / 132 AL**

Approved for RSD steer axle brakes on Daimler, Navistar and PACCAR vehicles using 16-1/2" x 5" (FMSI 4720) Q Plus brakes. MA1502 is rated for 14,600 lb. Meritor steer axles using T24 brake chambers and 5.5" slack adjusters.

## **MA2001 Drive Axle FF 20,000 lb. GAWR / 165 AL**

Approved for RSD drive axle brakes on Daimler, Navistar and PACCAR vehicles using 16-1/2" x 7" (FMSI 4707) and 16-1/2" x 8-5/8" (FMSI 4711) Q Plus brakes. Also available for limited use on older model Meritor and all-makes brake applications. MA2001 is rated for 20,000 lb. Meritor drive axles using T30 brake chambers and 5.5" slack adjusters.

## **MA2002 Drive Axle GF 20,000 lb. GAWR / 165 AL**

Approved for RSD drive axle brakes on Navistar vehicles using 16-1/2" x 7" (FMSI 4707) and 16-1/2" x 8-5/8" (FMSI 4711) Q Plus brakes.

MA2002 is rated for 20,000 lb. Meritor drive axles using T30 brake chambers and 5.5" slack adjusters.

## **MA2301 Drive Axle GG 23,000 lb. GAWR / 165 AL**

Approved for aftermarket use on 23,000 lb. drive axles using 16-1/2" x 8-5/8" (FMSI 4711) Q Plus brakes. Can be used as an alternate material to replace MA2302. MA2301 is rated for 23,000 lb. Meritor drive axles using T30 brake chambers and 5.5" slack adjusters.

## **MA2302 Drive Axle GF 23,000 lb. GAWR / 165 AL**

Approved for RSD drive axle brakes on Daimler, Navistar and PACCAR vehicles using 16-1/2" x 8-5/8" (FMSI 4711) Q Plus brakes. MA2302 is rated for 23,000 lb. Meritor drive axles using T30 brake chambers and 5.5" slack adjusters.

# MERITOR FRICTION MATERIALS

## EG – Economy Grade

FF 20,000 lb. GAWR / 180 AL (Type 30 chamber x 6” slack adjuster)  
Non-Asbestos Medium Friction

EG is a basic economy friction material for 20,000 lb. GAWR axle applications. Recommended for s-cam air brakes on trucks, tractors and trailers carrying medium weight freight on-highway, and long haul applications over average terrain conditions without high axle weights.

## EG2 – Economy Grade

GG 23,000 lb. GAWR / 165 AL (Type 30 chamber x 5-1/2” slack adjuster)  
Non-Asbestos Medium Friction

EG2 is a basic economy friction material for 23,000 lb. GAWR axle applications. Recommended for s-cam air brakes on trucks, tractors and trailers carrying heavier weight freight on-highway, and over average terrain.

## MG1A – Premium Grade

FF 20,000 lb. GAWR / 165 AL (Type 30 chamber x 5-1/2” slack adjuster)  
Non-Asbestos Medium Friction

MG1A is a standard 20,000 lb. GAWR rated friction material offering good performance using 5-1/2” slack adjusters. Recommended for s-cam air brakes on trucks, tractors and trailers carrying medium freight on-highway, and long haul applications over average terrains.

## MG2LA – Standard Grade

GG 23,000 lb. GAWR / 165 AL (Type 30 chamber x 6” slack adjuster)  
Non-Asbestos Medium to High Friction

MG2LA is a standard 23,000 lb. GAWR rated friction material with a 5-1/2” slack. MG2LA is recommended for s-cam brakes on trucks, tractors and trailers carrying heavy weight freight on-highway, long haul applications over average and rough terrains and applications subject to higher temperatures.

## MG2A – Premium

GG 23,000 lb. GAWR / 165 AL (Type 30 chamber x 6” slack adjuster)  
Non-Asbestos Medium to High Friction

MG2A is a premium performance 23,000 lb. GAWR rated friction material. It provides best stopping performance over a wider range of applications. MG2A is recommended for s-cam and wedge brakes on trucks, tractors and trailers carrying heavy weight on-highway, long haul applications over average to rough terrains, liquid and grain hauling, city stop-and-go applications and buses.

## CG – Combination Mix

FF 23,000 lb. GAWR / 165 AL (Type 30 chamber x 5-1/2” slack adjuster)  
Non-Asbestos High Friction

CG is a premium combination mix, which utilizes MG2LA for the anchor segment and MET (full metallic) for the cam segment of each lined shoe. This allows the shoe to be effective across a wider range of temperatures up to 900 degrees F. CG is recommended for applications where drum temperatures are consistently high, s-cam and wedge brakes on trucks, tractors, trailers, buses carrying heavy weight freight on-highway and for severe service applications such as refuse, logging and off-road rough terrain conditions.

# REMANUFACTURED BRAKE SHOES WITH PLATINUMSHIELD™ II COATING

## “Brake-Through” Technology Solves The Industry’s Rust-Jacking Problem!

PlatinumShield™ II coating. It's one very big Meritor idea that results in even bigger dividends for you and the whole trucking industry.

Why? Because Meritor® reman brake shoes with PlatinumShield II, the second-generation brake shoe coating that features a stronger formula, provide unsurpassed resistance to rust-jacking and corrosion – while extending the life of your brakes.

Today's harsher liquid chemicals used in winter road solvents to melt ice and snow have intensified the rust-jacking that has cut short brake shoe life and added unnecessary costs.

But our PlatinumShield II, the second-generation coating of this scientific breakthrough by Meritor brake engineers, has solved the problem once and for all.

As a result, Meritor reman brake shoes with PlatinumShield II coating deliver everything you expect from a worldwide brake leader. Including our 3-Year/300,000-Mile warranty against rust-jacking. So, unlike the competition's, our 3-year reman brake shoes actually last three full years.

Now, those are the kind of results that every fleet wants. Again and again.

### What Is Rust-Jacking? Why Is It Such A Problem?

- ♦ “Rust-jacking” is a field condition caused by corrosive anti-icing highway chemicals – combined with thawing and freezing moisture that penetrates the brake shoe coating and causes rust to build up on the brake shoe table.
- ♦ As rust builds up, it pushes outward against the lining, “jacking” it up between the rivets, until the lining cracks.
- ♦ Once the lining cracks, it is unsafe and must be replaced – cutting short the brake shoe life and denying truck operators its full value – often with a thick amount of lining remaining.
- ♦ Rust-jacking is found most often where intense brake heat cannot dry out the shoe table. Typically, this occurs in front shoes.

Results after salt spray test.  
(Left) PlatinumShield II coating, (right) Competitor G.

### How Did Our Brake Engineers Solve This Longtime Rust-Jacking Problem?

In order to develop a real-world solution, our brake experts re-created actual road conditions. Unlike in most testing, we first took lined brake shoes and subjected them to brake applications on a dynamometer – before we subjected them to a salt spray test. In this approach, brake shoes reach the salt spray test with wear and tear that more closely approximates actual highway results.

Next, in our ASTM B-117 Salt Spray Test,\* brake shoes were sprayed with a bath made of modern anti-icing road solvents and salt water for 408 hours. We observed how rust forms on brake shoe tables and tested the corrosion resistance of countless paints and coatings.

Of all the brake shoes and coatings tested, we found that PlatinumShield II does the best job of protecting the shoe table by preventing micro-abrasions, so rust-jacking simply does not occur during the expected life of the brake shoe. In fact, the PlatinumShield II coating meets our list of desired criteria:

- Rates higher than 8 on the ASTM scale.
- Unlike competitors', Meritor reman brake shoes with PlatinumShield II coating offer a 3-Year/300,000-Mile warranty against rust-jacking.

Our proprietary PlatinumShield II coating is available on both our standard Meritor and Frax-Le® brand reman brake shoes.

### Want Extended Brake Life And Reduced Stopping Distances Combined?

No other reman brake shoe delivers protection from rust-jacking for the full brake life like Meritor reman brake shoes with PlatinumShield II coating. And now, no other reman brake shoe will deliver such a combination of stopping power and corrosive protection. Because Meritor reman brake shoes with PlatinumShield II coating now also feature new Meritor Reduced Stopping Distance (RSD) friction materials. It's simply the best braking combination available in the aftermarket!

### Nine-Step Remanufacturing Process.

Meritor reman brake shoes with PlatinumShield II coating offer all the advantages of the proven Meritor nine-step brake shoe remanufacturing process. In our Plainfield, Ind., facility, each shoe is completely remanufactured – not rebuilt – and restored to the same high-quality performance standards as original Meritor production brake shoes.

#### Step 1 – Initial Inspection

Trained technicians thoroughly inspect the core for excessive wear.

#### Step 2 – Washing

Removes all grease and residue from the shoe's previous use.

#### Step 3 – De-Lining

Unique high-volume de-lining process.

#### Step 4 – Shot Blasting

Ensures a deep clean before moving to the next step.

#### Step 5 – Coining

Re-stamps the brake shoe table to true original shape.

#### Step 6 – PlatinumShield II Coating

Provides lasting protection from powerful anti-icing highway chemicals, rust and corrosion.

#### Step 7 – Riveting and Relining

Top-quality Meritor brake linings, engineered to meet stringent QS-9000 quality standards, are riveted securely to the shoe table to ensure quality performance.

#### Step 8 – Quality Inspection

Every Meritor remanufactured brake shoe receives a thorough inspection before being cleared for shipping.

#### Step 9 – Label Approval

Only Meritor reman brake shoes with PlatinumShield II coating that pass our rigorous inspection process receive a Meritor brake shoe label.

## MERITOR AFTERMARKET PARTS WARRANTY

We warrant all new parts for one year from date of shipment to the buyer against defective material or workmanship (but not against damage caused by accident, abuse or improper installation, maintenance or repair) when such parts are used on vehicles the specifications of which have been approved by our Engineering Department.

As the exclusive remedy under this warranty, we will, at our option, repair or replace such parts free of charge, or take back the nonconforming parts and refund the monies paid by buyer for such parts, if found on examination by us to be nonconforming and if any necessary return charges are prepaid.

If it is necessary to return any parts under this warranty, buyer agrees not to make any deduction on account thereof from remittances on current accounts while claims are in the process of disposition. Any expense incurred without our consent for repairs or replacement will not be allowed.

**THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE. IN NO EVENT SHALL SELLER BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE.**

Only genuine Meritor replacement parts are covered by this aftermarket parts warranty.
