STEMCO Automatic Tire Inflation System Replacement Hoses

STEMCO automatic tire inflation system replacement hoses provide a more durable option for keeping your tires properly inflated.

All STEMCO ATIS replacement hoses include an easily accessible fill and pressure check port – no more disconnecting hoses (and risking O-ring damage) to check your tire pressures! Get more from your ATIS with STEMCO replacement hoses!

Resistance to Cuts

This test simulated a sharp metal object, forced upward between the duals, which can cut or damage the air hose.

Resistance to Heat (472°F Spot on the Hose)

Aluminum wheels can concentrate sunlight into a beam that can reach temperatures of over 400° F which can cause hose failure or damage.

Tensile Strength

Tensile strength is important if the hose is snagged or stretched.
