To: United Pacific Dealers
Subject: Discontinued Headlights

Dear United Pacific Dealer,

A few of our modular headlights with LED accents have been discontinued. The list of specific part numbers is below. The headlights are being questioned in terms of patent issues, so to play things safe we are no longer selling these item numbers. United Pacific believes that our current headlight designs are unique, however, the cost of litigation would be expensive. United Pacific also believes that the potential cost of litigation would be better invested in developing new and exciting products for our dealers.

We apologize for this notice but also know that any headlights on the list below which you have sold in the past will still be covered by the original warranty period. If you have any questions, please contact our Customer Service department at 800-790-6988.

United Pacific Industries
