READY TO DELIVER AND WIRED TO SERVE®

Thousands of parts on-hand with over 99% of in-stock orders shipped same day!*

Can't find the part you need?
Call us and we'll track it down.

At Waytek, we're engineered to do whatever it takes to deliver whatever you need, or as we put it — **Wired To Serve.**

Let us be your warehouse, so you can save on inventory costs while accessing a wide variety of electrical components from manufacturers known for premier quality. Our inventory runs deep, and we're always ready to ship the same day* so you can keep your project on track. Count on us for:

- > **Real People** — calls are answered by a live customer service representative, with no lengthy automated messages or confusing menus
- > **Right Parts** — thousands of electrical components in stock, from a variety of manufacturers and at the prices you need
- > **Exceptional Service** — whether you need a quick turn on a quote, or a last-minute order shipped same day,* we realize timeliness is everything

HAVE YOU HEARD?

In 2016, Apruve conducted an e-commerce study of 40 Electrical Distributors. **WAYTEK** is ranked in the Top 10!

Apruve's criteria flows into three basic categories, focusing on Business-to-Business (B2B) relations:

User Experience & Usability

Making sure product information is current and valid, and that the website is intuitive and well-organized.

Checkout

Access to any information the customer may need, such as shipping options, invoices, and order history.

B2B Product Needs

Access to related products and volume discount information on product pages.

At Waytek we are always working to improve our website, focusing on our customers' experience. Apruve saw how **WIRED TO SERVE®** we are, now let us show you.

APRUVAL RATING

USER EXPERIENCE AND USABILITY + CHECKOUT + B2B PRODUCT NEEDS

apruve

apruve.com/apruval-rating-report

Our website is ever evolving to give you the information you require. Here are a few updates from 2016 you may have noticed.

PRODUCT SPECIFIC ICONS

Extra Shipping Charge

REACH Compliant

RoHS Compliant

Waytek is going **360°**

Starting in 2016 we have been revamping the way we do images of our products and started testing 360° images. Starting in 2017 you will be able to see more and more products from a full 360°.

Registered Web Account Features

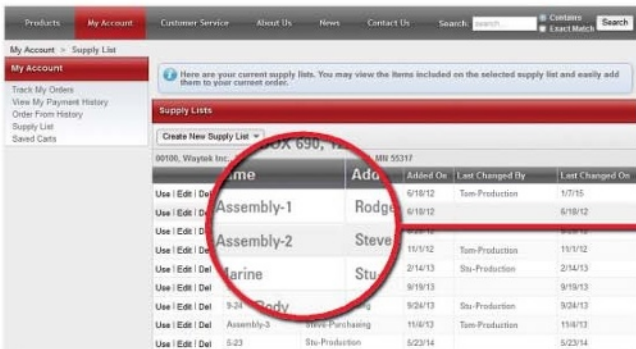

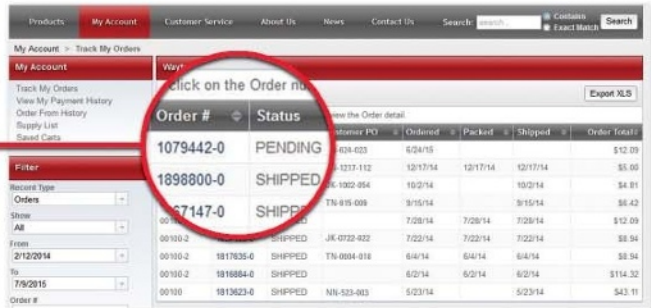

CREATE YOUR WAYTEK ACCOUNT

1) QUICK ORDER TOOL

Already know exactly what you need? Place your orders quickly with item stock numbers and quantity.

2) TRACK YOUR ORDERS

Track all your orders, view order history and print invoices.

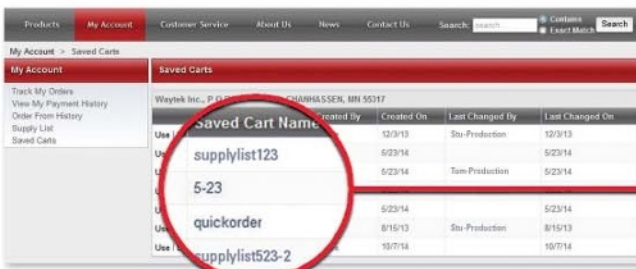

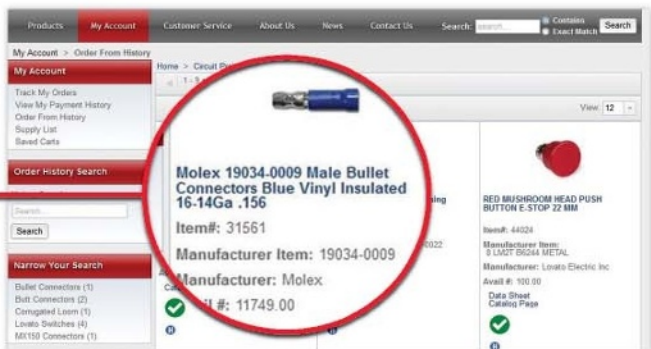

3) CREATE SUPPLY LIST

Save time ordering. Create your Purchase Orders in the Supply List Tool. Add parts and quantities to a supply list, save it, and re-order from it any time.

4) VIEW ORDER HISTORY

Every part ever ordered. Simply add to cart to order again.

5) SAVE YOUR CART

Need more time with your order? Save your cart and come back to finish the order at a later time.

WE HAVE NO OFF SWITCH!

Access your online account 24/7 @ www.waytekwire.com

Do you need online access for an existing account? Call 800-328-2724 and our customer service reps will set you up!

AUTOMOTIVE CROSS-LINK POLYETHYLENE (XLPE) WIRE

- Single conductor, stranded, bare copper
- Insulated with chemically cross-linked polyethylene
- Smooth surface finish
- Resistant to moisture, grease, oil, gasoline, most acids and solvents
- Superior abrasion resistance

Application

- Use in high temperature areas such as engine compartments

Drums and half drums available.
Call 800-328-2724 for details.

BARREL CONE

19"H Black Barrel Cone Stock No. 600

- Controls and guides wire at high speed rates for today's modern wire processing systems
- Keeps your wire clean
- Fits standard 24" diameter barrels

Subject to additional shipping charges.

CUSTOM WIRE STRIPING

- 22-10 ga in both PVC or cross-linked polyethylene jacketed constructions
- Up to 3 stripes per wire
- 1,000 ft. minimum requirement

Call 800-328-2724 for details.

CUSTOM PRINTING

- 20-10 ga wire
- Available in English only
- Black print
- 1,000 ft. minimum requirement

Call 800-328-2724 for details.

AUTOMOTIVE PRIMARY WIRE |

- Single conductor, stranded, bare copper
- Jacketed polyvinylchloride (PVC)
- Excellent resistance to oil and flame
- Custom printing or striping available

Application

- Standard for automotive applications, most widely used general purpose wire in the industry
- Smooth surface ideal for pulling through loom or conduit
- Standard for original equipment and replacement automotive applications

Drum quantities upon request.
Call 800-328-2724 for details.

PARALLEL BATTERY CABLE

- Stranded, bare copper
- Available in PVC or Thermoplastic Elastomer (TPE) insulation
- Flexible stranding for cold and warm weather use
- Insulation color is black with red stripe
- Also called duplex battery cable

Application

- Extremely flexible duplex battery cable can be used for a variety of applications such as electric tarps, lift gates, spreaders, and any application requiring power to a remote area
- Ideal for booster cable construction

Gauge	Stock No.	Insulation	Standard Put-Up - Ft.	Approx. Weight, Lbs. Per 100'	Typical Stranding	Nominal O.D. in. (mm)

NOTES

†† These spools ship via truck. Footage of the largest put-up for each item may vary.

*176°F (80°C)

WELDING CABLE

- Stranded, bare copper
- Class K welding cable
- Flexible stranding
- Dual jacket
- Water resistant Thermoplastic Elastomer (TPE) insulation inner jacket
- Neoprene outer jacket

Additional colors and gauge sizes may be available on special order basis. Call 800-328-2724 for details.

Final ordering stock number: WC6-0-100

Specify footage needed and put-up requirements.

* Orange jacket is standard in electric vehicles for high voltage identification. Available in 6 and 4 gauge, 100 ft put-ups.

EPDM WELDING CABLE

- Highly flexible annealed 30 (0.010) gauge bare copper conductor, insulated with an EPDM jacket and paper separator
- Durable jacket resists cuts, tears, abrasion, grease, oil, water and flame
- Appropriate for any welding application that requires leads, grounds and stinger/whips

SERVICE CORD

Type SJ00W

Type SO0W

- Stranded, bare copper
- Excellent resistance to abrasion, ozone, sunlight, chemicals and oils
- Inside jacket material: Chlorinated Polyethylene (CPE)
- Approved for submersion in water
- Outer jacket printed with cable identification, wire gauge and number of conductors
- MSHA approved
- UL/CSA Horizontal Flame Test
- Available in 250 ft. put-ups
- Bulk spools available on request

194°F (90°C)
-40°F (-40°C)

Call 800-328-2724 for special construction configurations.

HOOK UP WIRE - UL TYPE

- Tinned copper is more resistant to corrosion and easier to solder compared to bare copper
- Meets flammability rating VWI
- Waytek is a UL Certified re-spooler of wire

BRAKE CABLE

2, 3 or 4 conductor

- Stranded, bare copper
- Flat, jacketed PVC
- Resistant to oil, grease, gasoline and most acids
- Available with 2, 3, and 4 conductors
- Color coded

Application

- Automotive, truck or trailer applications

Call 800-328-2724 for special construction configurations.

J1939 CAN-BUS DATA CABLE

- Stranded, bare copper
- Reduces wiring, electronic interference
- Offers high-speed network communication
- Dual jacket insulation: Cross Linked Polyolefin (XLPO), Thermoplastic Polyurethane (TPU)
- Waterproof | 25°C TPU jacket
- Abrasion and cut resistant
- Excellent oil and chemical resistance

Application

- Processing equipment & audio

Call 800-328-2724 for special construction configurations.

Terminals & Connectors Non-Insulated

RINGS |

Butted Seam

UL and CSA information may be available upon request.

Butted Seam

Serrated terminal barrel for extra wire grip. Chamfered for easy wire insertion. Tin plated copper material.

Brazed Seam

Brazed Seam

This terminal is similar to the butted seam terminal, except the seam in the barrel has been brazed. The brazing allows the terminal to be crimped in any position around the barrel, which helps give extra wire holding strength. Tin plated copper material.

Stud Hole Chart for Ring Terminals

Stud holes are shown actual size. Use this chart to determine which terminal to order.

Dielectric Grease

- Prevents corrosion and keeps moisture out of sensitive electrical connections
- See page 63

For details on the tools, go to page 54-57.

Uncontrolled data

Please note that we cannot guarantee that a given tool will perform a satisfactory crimp on a specific terminal due to variables that include terminal material, terminal wall thickness, wire gauge, wire stranding and wire insulation thickness. The user must make the final determination that a crimp is acceptable.

See page 31 for Terminal Blocks.

Typical 2 position 20 amp / 150 volt unit shown

Typical 8 position 30 amp unit shown

- Block spades and flanged block spades are popular for use with terminal blocks as they are the narrowest styles and fit most terminal blocks
- Snap spades will snap and hold in place for a more secure connection

INSULATED RINGS | molex

UL and CSA information may be available upon request.

Vinyl Insulated

Vinyl insulated terminals consist of the standard butted seam non-insulated terminal with a color coded vinyl jacket molded into place. Most vinyl insulated terminals feature funnel entry for easy wire insertion.

Typical Vinyl Insulated

Nylon Insulated with Extra Sleeve

Nylon insulated terminals start as a standard butted seam terminal with a brass sleeve over the barrel and the nylon insulation is molded over this brass barrel. These terminals should be crimped twice, once on the copper conductor in the wire and once on the insulation part of the wire. This second crimp helps provide a stronger connection, can act as a strain relief and is recommended when the terminal is subject to vibration. Tin plated copper material.

Crimper

Stock No. 479

- Gauge: 22-10 AWG
- Color-coded crimp positions
- Use with Molex Perma-Seal Connectors
- Ergonomic soft grip handles for comfortable crimping
- Full cycle ratcheting hand tool ensures complete crimps

Crimper

Stock No. 480

- Gauge: 22-8
- Includes removable die
- Color-coded crimp positions
- Lever to release jaws in mid-cycle
- Ratcheting operation with ergonomic handle to prevent hand fatigue
- Mating feature on tool to prevent mis-alignment and ensure a proper crimp

CRYSTAL CLEAR CONNECTORS NEW

- 45 degree barrel assures that wire is seated properly and being crimped to terminal
- 45 degree barrel angle allows tubing to adhere to it and provides stronger seal
- Long ring terminal provides flush surface for maximum contact allows ring terminal to be stacked
- Color coded stripes identify wire gauge size to be used with connector
- Color coded stripes also indicate/guide where to position crimp nest to install properly
- Brazed seam barrel ensures superior crimp performance
- Serrations in crimp barrel provide strong mechanical termination

EYELETS/LUGS

Heavy Duty Tinned Copper Eyelets/Lugs

- Solid electrolytic copper eyelets feature heavier material thickness, larger pads and longer length barrels than standard eyelets
- Electro-tin plated to prevent oxidation and corrosion
- Chamfered barrel entry makes it easy to insert cable

STACKABLE BATTERY LUGS

- 36 anti-rotation teeth keep cables separated on terminals
- Connectors of different gauges can be mixed and stacked
- Tin-plated copper lugs offer the best balance of conductivity and durability
- Use with stud batteries; enable multiple battery hookup
- Corrosion resistant
- Use 3/8"-16 closed cap nut to terminate

CRIMPERS

Eyelet Crimper

Stock No. 497

- Crimps eyelet style copper lug terminals 8-4/0 ga
- Includes 3 separate dies

Heavy Duty Crimper

Stock No. 471

- Ideal for copper eyelets and large terminals
- Adjustable crimping nests, no die changes required
- Clearly marked wire range (8-4/0 ga)
- Easy to operate and may be mounted to a bench (Clamps not included)

PRE-ASSEMBLED BATTERY CABLES |

- Flexible for easy installation and allows maximum current for quick starting
- One-piece solid connection - copper core extends to the end of the plated lug
- Battery cable is PVC insulated and meets SAE standards
- Top post battery cables have a 12 ga GPT wire auxiliary lead with a 12 ga PVC insulated butt connector at the end

4 ga Black Top Post Battery Cables with 12 ga Auxiliary Lead

Eyelets are 3/8" stud size

LEAD-FREE BATTERY LUGS |

- 3.6 times more conductive than lead lugs
- RoHS Compliant
- High corrosion resistant ultra plating
- Eliminates company liability and cost associated with products containing lead

Top Post Lug
Stock No. 36085

- Fits over positive or negative posts on top terminal batteries

Top Post Lug
Stock No. 36092

- Fits over positive or negative post on top terminal batteries

Marine Type Wing-Nut Lug
Stock No. 36096
Stock No. 36097
Stock No. 36098

- Converts top terminal battery posts to accept tubular copper lugs

Side Post Lug
Stock No. 36110

- Fits into positive or negative terminals on side terminal batteries

Military Ordinance Lug
Stock No. 36111
Stock No. 36112

- Fits over positive or negative posts on top terminal batteries
- Extra long bolt allows for additional accessory leads
- Mil Specs: A52425-1 (MS75004-1) and A52425-2 (MS75004-2)

Heavy Duty Lug
Stock No. 36113

- Fits over positive or negative posts on top terminal batteries

CRIMPABLE BATTERY LUGS

- Manufactured from 100% copper
- Tin plated to add conductivity and protection against corrosion
- Polarity marked

CRIMPABLE BATTERY LUG CRIMPING TOOLS

- Stock No. 443**
- Heavy duty crimping tool
 - Crimps battery lugs from 8-4/0 ga
- Stock No. 521**
- Upgrade kit for Stock No. 443 & 475

- Stock No. 475**
- Bench mountable version of Stock No. 443
 - Crimps battery lugs from 8-4/0 ga

- Stock No. 461**
- Light duty crimping tool
 - Crimps battery lugs from 8-1/0 ga

- Stock No. 462**
- Economically priced
 - Used with a hammer for a quick crimp in maintenance and repair situations
 - Handles terminals from 8-4/0 ga

BRASS BATTERY LUGS

- Solid brass battery lugs are lead plated for superior conductivity and low electrical resistance
- Used for solder construction only
- Universal type will fit both the positive and negative battery posts
- Furnished with a standard plated nut and square head bolt

- Spare Battery Lug Nuts and Bolts**
- All 5/16"-18
 - Zinc plated

LEAD FREE BATTERY LUGS

- Stock No. 36225**
- Universal lead-free top post battery lug
 - Crimpable eyelet terminals included
 - Tin plated brass
 - 5/16" stud
 - 6-4 ga

SOLDER PELLETS

- Battery terminal solder pellets are a fast method for attaching a battery lug to a cable
- Cost efficient method eliminates the need for crimping
- Color coded to industry standard
- Sold in packs of 25

Flux is required.

BATTERY TERMINAL DISCONNECT

Stock No. 44099

- Top post mount designed for a quick disconnect with a simple turn and removal of the knob
- Helps discourage theft
- Not intended for marine use

BATTERY TERMINAL POST & CLAMP CLEANER

Stock No. 499

- Use to clean battery terminal posts

BATTERY BOOTS

- Use on alternator end of cables or battery posts
- Protects from corrosion and shorting
- Improves product appearance

BATTERY JUMPER TERMINALS |

Stock No. 36660

Stock No. 36661

- Provides remote mounting for battery connections inside or outside a vehicle
- Allows convenient jump starts and charging when battery is not easily accessible, or when reaching battery becomes dangerous
- Positive terminal can be used individually or in conjunction with negative terminal
- Includes color coded rubber cap, solid brass studs, brass hex nuts and brass lock washers
- Contact studs are 13/16" dia., 1 1/8" long, and grooved to accept standard jumper cables

Stock No.	Description
36660	Post with red cap for positive terminals
36661	Post with black cap for negative terminals

Stock No. 36658

Stock No. 36659

12-18VDC
350A

- Brass core battery jumper terminal, also known as jumper bushings
- Accommodates 1/16" to 3/8" barrier thickness
- 3/8" nickel plated steel connection post
- Use with 3/8" eyelets and battery lugs
- Heavy duty high strength glass-filled nylon bushing
- Mounts in "Double D" panel punches to prevent rotation

LEAD POST FOR CHARGING AND TESTING |

- Used to convert 3/8" stud type terminals to post type terminals
- Standardized battery terminals for ease of use

BATTERY BOLTS |

Stock No. 36249

- Anti-corrosive steel battery bolts with color coded ends replaces standard 5/16" battery terminal bolts
- Sold in pairs
- Order lugs separately

BATTERY SAFETY MARKERS |

Stock No. 23550

- Adhesive backed plastic markers
- Offers added safety to your application
- Sticks to clean surfaces
- Highly visible

8 POINT POWER DISTRIBUTION POST

- Connect several wire/cables to a central location
- 3/8" stud, (8) #8-32 connection points carry up to 20 amps each at 12 VDC
- Mounting hole: 2.5"
- Base material: glass-filled nylon

Stock No.	Description
47225	Black Power Post
47226	Red Power Post
47227	Cover

JUNCTION BLOCKS | EATON

47211	Non-Feed Through Junction Block	Black
47213	Non-Feed Through Junction Block	Red
47212	Feed Through Junction Block	Black
47210	Feed Through Junction Block	Red

Heavy Duty Non-Feed through Junction Block

- Longer stud than standard junction block to fit more eyelets
- High torque rating 300 in-lb max
- 1/2" stud - 13 threads, 1.5" long stud

Red **Stock No. 47201** Black **Stock No. 47200**

JUNCTION BLOCKS | NEW

- Type: non-feed through
- Glass-reinforced nylon
- Stud size: 1/4"

Red **Stock No. 47215** Black **Stock No. 47217**

BATTERY BUSBAR TERMINAL MOUNT

- Tin-plated copper
- Mounting hole: 3/8" (M10) stud
- Screw terminal type: #8-32 screws with captive star lock washer

Stock No.	Description
78248	Positive Red Boot
78249	Negative Black Boot

JUNCTION BLOCK STUDS

- Material: glass-filled nylon

Black **Stock No. 47205** Red **Stock No. 47202**

Stock No.	Stud Size	Description	Color
47202	5/16-18	1 Stud, Non-Feed Through	Red
47203	5/16-18	1 Stud, Non-Feed Through	Black
47204	5/16-18	1 Stud, Feed Through	Red
47205	5/16-18	1 Stud, Feed Through	Black

BATTERY FEEDER STUDS

- Conducts power through bulkheads or firewalls
- Impact-resistant plastic insulator/mounting bushing is 1 17/64" dia., 5/8" long
- (2) 3/8" stud - 16 thread brass stud terminals, 5/8" long

Red **Stock No. 36662** Black **Stock No. 36663**

ELECTRICAL POWER BUSHING WEATHER PROOF

- High current rating
- 4/0 ga terminal lugs
- Boot & gasket included
- Base material: glass reinforced nylon
- Base material UL Rating: 94 HB
- 1/4" max panel
- 1/2" stud

Red **Stock No. 36664** Black **Stock No. 36665**

TRAILER CONNECTOR 7-WAY SPLIT PINS

- Floating pins for ease of alignment and maximum contact
- Ground terminal pin #1 will accept 14-8 ga wire
- All other terminals accept 16-10 ga wire
- Self-grounded to terminal #1
- Recommended mounting hole is 2" diameter
- Die-cast material

	Stock No.
Socket	37668

TRAILER ADAPTER KIT

Stock No. 37682

- Kit includes: cable, mounting bracket, fasteners & socket
- Socket also sold separately (Stock No. 37683)
- 4' harness assembly with 0.500" 1/2" I.D. convoluted tubing, and 7 wire leads color-coded to RVI standards
- Interlocking connectors seal out moisture, eliminate loose wiring and form weather-tight, non-corrosive assembly

Socket Only

Stock No. 37683

- Terminal pins are tin plated copper alloy providing higher conductivity and less resistance and are silicone sealed at the back of socket to prevent moisture
- High impact nylon solves corrosion problems and eliminates rusting
- Mates with 7-Way Plug Stock No. 37677 (sold separately) on page 35

ISO 7 WAY CONNECTOR PLUG WITH CABLE GUARD

- Meets or exceeds all standards of SAE J560
- Floating pins for ease of alignment and maximum contact
- Accepts widest range of automotive wire gauges from 16-8 ga for ground wire
- High-impact cyclolac interior with extended lip for easy removal and replacement
- Solid brass terminal screws
- Polarized ground terminal
- Die-cast material

- Molded connectors with color coded wires are available in two configurations:
 - Connector molded on one end only
 - Male connector on one end and female connector on the other end
- 16 ga wire
- Contacts are .180" dia. size
- GPT wire has a PVC jacket
- GXL wire has a cross linked-polyethylene XLPE jacket, which is resistant to grease, oil, gasoline and most acids

Special configurations and wire types may be available. Call 800-328-2724 for details.

7-WAY TRAILER CONNECTOR PLUG

Stock No. 37647

- SAE wiring style
- 6 foot length wire, (length includes non-jacketed)

SEALED SPLICE PACK SYSTEM

- Becomes an in-line fuse holder for one to three circuits when used with mini fuses
- Common busbar converts the unit into a convenient splicing system
- Sealed terminals and cap offers a completely weathertight assembly
- Complete assembly requires cable seals, terminals, connector body, cap and any common bars
- Unused pin locations need a cavity plug, and the TPA helps keep the terminals from pulling out
- For a perfect crimp, ratchet tools should be used
- Mounting clips are offered to attach the assembly to your application
- Extended caps are a variation of the popular Splice Pack Cap
- Mini fuses and the busbar system can also be used with these caps
- Caps are designed to accommodate diodes, blade mount circuit breakers, and have special grooves so cable ties can be added to provide additional locking security
- Connector parts are part of the Packard Metri-Pack sealed connector 280 series, on page 41

DELPHI WEATHER PACK

- Locking nylon connectors are sealed against moisture, dust and dirt
- Terminals and seals are secured in the connector body with a hinge lock assembly
- Cable seals must be used with mating terminals
- Use the cavity plug for all pin locations not filled with terminals
- Tower half connector body comes with a self lubricating silicone seal to reduce the engagement assembly force

TYPICAL ASSEMBLY INSTRUCTIONS

These assembly instructions apply to both the Weather Pack and the Metri-Pack connector series.

1. Apply seal to cable, before stripping insulation.

2. Align seal with cable insulation.

3. Put terminal in crimping tool, then position wire and seal in place.

4. Crimp and visually inspect for a good crimp before installing in connector body.

WeatherPack Hand Tool

Stock No. **402**

- Crimps 20-14 ga wire, terminal and cable seal in one operation
- Ratchet assembly assures a perfect crimp every time

WeatherPack Hand Tool

Stock No. **440**

- Similar to the 402 with shorter handles
- Crimps 20-14 ga wire, terminal and cable seal in one operation

WeatherPack Terminal Removal Tool

Stock No. **421**

- Removes Weather Pack socket and pin terminals from the connector bodies

Hand Tool

Stock No. **408**

- Crimps a variety of terminals and cable seals in separate operations
- Ratchet assembly assures a perfect crimp every time
- For 16-12 ga terminals

Economically priced Crimper

Stock No. **533**

- Economical tool crimps 22-14 ga sealed Metri-Pack 150 and 280 series, and Weather Pack terminals and seals
- Compact parallel jaw design eliminates terminal rocking

See our Waytek Weather-Pack Crimp Tool on page 55.

DELPHI 56 SERIES CONNECTORS

Available in one through six contact configurations

- Economically priced
- Locks together for a positive contact
- For heavy duty use in many automotive applications
- Use crimping tool Stock No. 401 or 507 for best results
- Male body half is made with a locking clip, as shown in picture
- Terminals available loose or on reels

CRIMPING TOOLS

Hand Tool Stock No. 401

- Crimps 18-14 ga male and female terminals
- Ratchet assembly assures a perfect crimp every time

Hand Tool Stock No. 507

- Crimps 20-10 ga male and female terminals in the 56 Series
- Crimps core wings only

METRI-PACK CRIMPING TOOLS

Hand Tool Stock No. 474

- Crimps 12 ga wire, terminal and cable seal in separate operations

Economically priced Crimper Stock No. 533

- Crimps 22-14 ga sealed Metri-Pack 150 and 280 series, and Weather Pack terminals and seals
- Compact parallel jaw design eliminates terminal rocking

Hand Tool Stock No. 509

- Crimps 20-14 ga male and female terminals in the Metri-Pack 150 and 280 series
- Ratchet assembly assures a perfect crimp every time

Universal Metri-Pack Terminal Removal Tool Stock No. 422

- Removes Metri-Pack socket and pin terminals from the connector bodies
- May be used with the 150 series and the 280 series

DELPHI METRI-PACK 150 SERIES SEALED CONNECTORS

- In-line connectors are ideally suited for space-limited applications
- Use in high demand situations along with low-energy electronic circuits
- TPAs (terminal position assurance) hold the terminals firmly in the connector bodies and act as strain reliefs
- CPAs (Connector Position Assurance) secures mating halves together
- Triple-rib silicone coated cable seals add the confidence of a totally sealed configuration
- Empty cavities must be filled with cavity plugs

DELPHI METRI-PACK 280 SERIES SEALED CONNECTORS

- In-line connectors feature high current and high current density in a small compact design
- Excellent resistance to temperature, chemicals and abrasion
- Works in conjunction with the splice pack components shown on page 37
- May be used in under-hood automotive applications as well as most marine, off-road and agricultural applications

• For 12-10 ga Metri-Pack 480 and 630 terminals only

DELPHI METRI-PACK 630 SERIES SEALED CONNECTORS

- TPAs (terminal position assurance) hold terminals firmly in connector bodies
- Triple-rib silicone coated cable seals add confidence of a totally sealed configuration
- Empty cavities must be filled with cavity plugs
- All connector bodies are straight (in a row)

Application

- Meets or exceeds requirements for most marine, appliance and industrial control applications
- Suited for applications that require protection from environmental hazards

DELPHI GT 150 SERIES CONNECTORS

The GT terminal and connector system was developed with global customer input at every design phase and has a compact package size suited to fit the shrinking space requirements of today's vehicles.

- Rugged and waterproof for off-road applications
- Pump-handle primary locks with integrated Connector Position Assurance (CPA)

- Tangleless terminals with stamped serrations
- Secondary lock capabilities including (TPA) Terminal Position Assurance and Primary Lock Reinforcement (PLR) with positive connector seal retention or a Slide Lock Cover (SLC) for unsealed systems
- Female terminals compatible with ISO or SAE blades
- Inline connectors are ideally suited for space limited applications
- Male body for male terminals, female body for female terminals

AMPHENOL ATM CONNECTORS | Deutsch DTM compatible.

- Specifically designed for small AWG applications, while maintaining the strengths of the AT Series™ product line
- Connector design incorporates an integral latching system that ensures a definitive electrical and mechanical connection
- Thermoplastic housing
- UV resistance
- Sealing system is comprised of an internal and rear silicone, multi-sealing perimeter against environmental ingress
- Copper alloy contacts
- Compatible with other existing standard products industry-wide
- RoHS compliant

AMPHENOL AT CONNECTORS | Deutsch DT compatible.

- High-performance, cost-effective Deutsch DT Series drop-in replacement
- Amphenol Receptacles must be used with the Amphenol Wedge locks in order to mate properly with Deutsch DT connectors
- Terminals can be interchangeable with Deutsch DT terminals
- Integral latching system ensures definitive electrical and mechanical connection
- Durable thermoplastic housings offer:
 - excellent UV resistance
 - dielectric/mechanical properties
 - RoHS compliance
- Front and rear silicone seal, multi-sealing, perimeter against environmental ingress
- Nickel plated contacts ensure an electrically-reliable connection
- IP69K

- Rugged construction to withstand harsh environments
- Provide higher current capability, improved sealing, higher terminal retention and a significant cost advantage compared to standard pin-and sleeve systems
- Shell size 24
- IP 67

ORDERING NOTES:

1. Select receptacle and plug connector from chart.
2. Select number of terminals needed – one terminal for each contact location.
3. Pin configuration is on data sheet, located on our website product page.
4. Circuit plugs are required for all unused pin locations.

Overlapping wing design increases strain relief, offers longer insulation crimp and larger outside diameter cable range capability.

Higher Performance Terminal

- Higher current carrying capability through superior material
- Stainless steel, nickel plated terminals provide stability and protection to contact interface area
- SAE, DIN, JIS cable ranges
- HES Pin and sleeve terminals can be mixed with any MIL 39029 terminals

MOLEX MLX™ 2.13 MM CONNECTORS |

- Interchangeable, intermateable and intermountable with industry standard connectors such as Mate-N-Lok®*
- Mates with existing wire harnesses, connectors, and printed circuit board (PCB) headers
- Housing material: Nylon 6/6 UL94V-2, natural color
- Pin and socket terminals can be intermixed in the same housing
- Housings will accept any industry compatible terminals

Rated up to **600V**

TOOLING |

Molex Crimping Tool
Stock No. 579
 (Molex No. 64016-0204)
 • Crimps 20-14 ga pin and socket terminals

Economy Crimping Tool
Stock No. 539
 (Molex No. 63811-1000)
 • Crimps 24-14 ga pin and socket terminals

Extraction Tool
Stock No. 578
 (Molex No. 11-01-0168)
 • For removing pin or socket terminals from connector bodies

Crimp Tool Frame
Stock No. 560
 • Use with die set 558 for complete tool assembly

Die Set for MLX™
Stock No. 558
 • Crimps 22-14 ga pin and socket terminals

* Mate-N-Lok is a registered trademark of Tyco Electronics

MXI50™ SEALED CONNECTORS

- Designed primarily for thin-walled SAE automotive style wire
- Environmentally sealed
- Superior performance under submersed water conditions
- Terminal position assurance components and the simple crimp, poke and plug application eliminate the need for time-consuming and costly assembly
- Terminals are simply crimped and poked into the housings
- No additional wire seals, wedge locks or CPA locks are required
- IP6K7 and IP6K9K rated

READY TO ORDER:

1. Select connector body style (receptacle or plug) from chart.
2. Select number of terminals needed – one terminal for each contact location.
3. Blank circuit plugs are required for all unused pin locations.
4. MXI50 crimping tool must be used to assure a good seal.

MXI50L™ SEALED CONNECTORS |

- Waterproof, environmentally sealed interconnection system designed to withstand harsh conditions
- Each housing comes pre-assembled with all components
- No additional wire seals, wedge locks or CPA locks are required

Application

The MXI50L is ideal for automotive, marine, off-road, construction, and agricultural equipment, as well as truck, bus and RV applications; and it accommodates a wide range of insulated wire styles from SAE to UL.

- IP67 rated

Assembly Instructions

1. Crimp terminal
2. Insert (poke) crimped terminal lead into the housing
3. Place TPA into its final lock position

Call 800-328-2724 to special order other positions - up to 16.

XRC™ CONNECTORS | Deutsch HDP compatible.

- Extra Rugged Circular Connectors from Molex
- Sealed for protection against dust and water
- Offered in two shell sizes: 18 and 24
- Available in 14 or 31 circuits
- Standard and reverse terminal genders allow for custom polarization
- IP 67 rated
- Interchangeable with Deutsch HDP Connectors
- Collar allows for easy gripping

Application

- In-line or panel-mount applications
- Needs hex nut and panel mount seal (sold separately)

MULTIPOLE POWER® CONNECTORS

- Provides a quick disconnect for power distribution systems
- Housings mate together, with same color connector for plug and receptacle
- Protective connector covers for all sizes are available, as shown
- Available in kits (one housing and two contacts), or assemble your own connector by purchasing two contacts and one housing separately

Reducing Bushings

- Optional reducing bushings for SB® series connectors assure proper fit when crimping contacts to smaller cable sizes

WAYTEK CRIMP TOOL FRAME AND DIES

Master Mobile Crimp Tool Kit Stock No. 569

- Includes Crimp Tool Frame 560, 7 Die Sets, 561, 562, 563, 564, 565, 566 and 567, plus a high quality carrying case

Build Your Own Customized Crimp Tool Kit!

PARTS SOLD SEPARATELY

- Individual parts are sold separately to suit your specific needs
- Customized kit is much less expensive than multiple individual tools

Tool Frame Stock No. 560

- Reliable, safe and comfortable to use
- Fast and simple exchange of crimp dies
- Dies sold separately

Carry Case Stock No. 568

- Empty carrying case for 560 tool frame and 8 dies
- Purchase tool frame and dies separately

Crimp Tool Die Sets

Die Set for MLX™

- Stock No. 558**
- 22-14 ga open barrel non-insulated terminals

Die Set for 150 & 280 Metri-Pack

- Stock No. 559**
- 18-10 ga open barrel non-insulated terminals
 - Crimps terminal and seal simultaneously

Die Set for Weather Pack

- Stock No. 564**
- 20-12 ga
 - Crimps terminal and seal simultaneously

Die Sets for Insulated Terminals

- Stock No. 561**
- 26-22 ga and 12-10 ga insulated terminals and splices
- Stock No. 562**
- 22-14 ga insulated terminals and splices

Die Sets for Non-Insulated Terminals

- Stock No. 563**
- 22-10 ga non-insulated terminals, lugs and splices

- Stock No. 567**
- 22-10 ga open barrel non-insulated 1/4" terminals, lugs and splices
 - Crimps terminal and seal simultaneously
 - 14 ga 56 Series terminals

Die Sets for Heat Shrink Terminals

- Stock No. 565**
- 22-18 ga and 12-10 ga heat shrink terminals

- Stock No. 566**
- 22-14 ga heat shrink terminals

WAYTEK STRIPPERS

Self-Adjusting Cut and Strip Tool

- Strips wires from 34-8 ga wire (0.02-10mm) without adjustment
- Replacement cassettes available and quickly changed as needed with ease

**Straight Angle
Stock No. 555**

**Right Angle
Stock No. 570**

- Stock No. 555B**
- Replacement straight blade cassette is for PVC, THHN, THHW
 - Self-adjusting cut and strip tool (555 & 570)

- Stock No. 555BV**
- Replacement "V" blade cassette is for Teflon
 - Self-adjusting cut and strip tool (555 & 570)

Heavy Duty Cable Stripping Tool

Stock No. 556

- Strips cables of all insulation types
- Features two interchangeable cable guides for a cable capacity of 0.18" up to 1.57" (4.5-40mm)
- Three blade positions to provide circular, lengthwise or spiral cuts
- Replacement blade contained inside the tool

- Stock No. 556B**
- Replacement blade for heavy duty cable stripping tool (556)

Precision Stripping Tool

Stock No 557

- 9-position stripping tool
- Strips jackets of most cables up to 0.43" (11 mm) with insulation thickness up to .04"

- Stock No. 557B**
- Replacement blade for precision stripping tool (557)

Stock No. 25362

DOUBLE-BACKED PRESS CLIP

- Molded of white nylon 6/6
- High strength polyethylene foam tape
- 1/4" maximum bundle
- .25" wide

Application

- Quick adhesion for holding wire and cable to any smooth, flat surface

See wire and cable products on pages 6-13.

HEAVY DUTY MOUNTING SYSTEM | HellermannTyton

Dual Swivel Saddle Mount

- Reduces abrasion or wear by keeping items separated
- Mount rotates to any angle
- 250 lbs. minimum pull apart force
- Heat stabilized
- Assembly requires two cable ties, one around each bundle
- Works best with the High Impact Resistant Tie, Stock No. 21295, sold separately on page 144

Application

- Hold wires and hoses

Stock No. 21290
(Tyton No. DSWS50HSK2)

Typical Application

Saddle Mounts

- High impact heat stabilized black nylon
- Elevates bundles off mounting surface
 - **Fir Tree Mount:** snaps into a 1/2" hole and will hold three bundles
 - **Button Head Mount:** uses button head tie (sold on page 146) through the mount and around the bundle; secures up to three bundles

Application

- Hold and protect wires, cables, tubing, conduit, etc.

FULLY CUSHIONED CLAMP

Stock No. 25216

Stock No. 25206

- General purpose EPDM
- Plated steel
- 1/2" wide
- .265 mounting hole diameter

Application

- Hold cable, tubing, wire, etc.

METAL CHASSIS CLAMP

Size (Length)	Stock No.
1.135	25311
1.715	25312
1.600	25313

All dimensions in inches.

- Heat treated spring steel with a black corrosion resistant finish
- Easily snaps in place

Application

- Secure wires, cables and hoses

Nominal Size	Stock No.

METAL CABLE CLAMPS |

PARTIALLY CUSHIONED CABLE CLAMP Plated Steel, Stainless Steel & Aluminum

- Heavy duty
- General purpose EPDM
- Durable cushion helps reduce vibration while protecting your product
- Open position for ease of assembly
- .265 mounting hole diameter (1/2" wide clamps)
- .406 mounting hole diameter (3/4" wide clamps)

Application

- Hold hydraulic hoses, wire harnesses and cables
- Heavy duty clamping applications

VINYL COATED CUSHIONED CLAMP |

- Vinyl plastisol cushion is permanently bonded to the zinc plated metal and cannot be removed
- Cushion protects and reduces vibration

Full Clamp

- Fully encloses clamping diameter
- Contour shaped clamping diameter is specially designed for ease of assembly
- .281 mounting hole diameter (1/2" wide clamps)
- .406 mounting hole diameter (3/4" wide clamps)

Application

- Hold cable assemblies, wire harnesses and hoses

Half Clamp

- Easy to assemble
- .281 mounting hole diameter

Application

- Hold wires, tubes, conduit and piping

See corrugated loom products on page 70.

NYLON 6/6 GLASS FILLED SNAPPER HOSE & CABLE CLAMPS | HellermannTyton

- Glass-filled black nylon can withstand high temperatures
- Adjustable; allows application after the hose is connected
- Quick, ratchet closure provides specific take-up; eliminates excessive tightening
- Closure remains in place when tightened
- Easily reopens with a lateral effort

Application

- Secure hoses

White acetal clamps may be available on special order. Call 800-328-2724 for details.

Assembly Tool for Plastic Hose Clamps

- Mechanical installation
- Reduces operator fatigue and installation time
- Fits all plastic hose clamps from Stock No. 28501-1.25 through 28501-60

Application

- Maintenance tool for assembly and disassembly of plastic hose clamps

Stock No. 451

STANDARD HOSE CLAMP

- General purpose
- Closure remains in place when tightened
- Easily reopens with a lateral effort
- 1/2" wide, *Micro Clamp*: 5/16" wide
- *Standard Hose Clamp*: stainless steel band and housing with a plated steel screw
- *Stainless Steel Hose Clamp*: all stainless, including screw; used in highly corrosive areas

Application

- Secure hoses, tubing and fittings

Standard or Stainless Steel

HIGH STRENGTH HOSE CLAMP

- All stainless steel construction
- Twice the clamping strength of standard hose clamps
- Extra notches in the band for extended range
- 5/8" wide

Application

- Use in demanding clamping applications

Heat Shrink Products

POLYOLEFIN CPA 100 DUAL WALL (3:1 Shrink Ratio)

- Accommodates a variety of shapes and contours
- Internal meltable sealant physically encapsulates connections
- Flame retardant

Application

- Marine, automobile and telecommunications

Internal adhesive melts when shrunk.
Shrinks to 1/3 the original size.

 230°F (110°C) SHRINK TEMPERATURE:
-67°F (-55°C) 248°F (120°C)

Pre-Shrunk Shrunk

22545	22565	1/2	.500	.167	.055

READY TO ORDER:

1. Order the 48" lengths by the number of pieces.
2. Order the 6 inch and 1 1/4 inch lengths by the number of bags.

All shipments are subject to dimensional weight charges.

Notes:

To measure I.D., open heat shrink to its rounded state and then measure the inside diameter (do not measure while flat to get I.D.).

All dimensions in inches.

Polyolefin Dual Wall Assortment Pack

Black 6 in. Lengths

Stock No. 22260

- Ideal for prototype work, or where a variety of sizes is needed
- Shrinks to 1/3 the original size

READY TO ORDER:

Order by the number of pieces.

All shipments are subject to dimensional weight charges.

Notes:
To measure I.D., open heat shrink to its rounded state and then measure the inside diameter (do not measure while flat to get I.D.).

All dimensions in inches.

- Meets SAE-AMS-DTL-23053/15, Class I ABS
- Cross-linked polyolefin
- Flame retardant
- Chemical, abrasion and split resistant
- Easy handling and installation with maximum operating reliability and system protection
- Sealant is heat-activated thermoplastic material that remains soft and flexible over long periods under adverse environmental conditions
- During heating, sealant softens, bonds to underlying surfaces and fills small voids that might be present

SHRINK TEMPERATURE:
230°F (110°C) -67°F (-55°C) 250°F (121°C)

READY TO ORDER:

1. Order the 6" and 48" lengths by the number of pieces.
2. Order the spools by the number of feet.

All shipments are subject to dimensional weight charges.

Notes:

To measure I.D., open heat shrink to its rounded state and then measure the inside diameter (do not measure while flat to get I.D.).

All dimensions in inches.

- Outstanding balance of electrical, physical and chemical properties for a variety of industrial and military applications
- Shrinks to 1/2 the original size
- Split-resistant
- Mechanically tough
- Easily marked and resists cold flow
- Designed to withstand elevated temperatures to 572°F (300°C) for short periods
- SAE-AMS-DTL-23053/5, Class 1 Class 2

Application

- Use over cable splices and terminations

MICROTORCHES AND HEAT GUNS |

Hand Held Butane-Powered Microtorch

Stock No. 536

- 2-hour continuous burn time
- Built-in refillable plastic fuel tank
- Includes hot air tip and 1" dia. heat shrink attachment
- 6.1"H x 3"W x 1.3"D
- Butane not available - shipped dry

Application

- Shrink tubing, solder and terminate specialty connectors

2500°F (1300°C)
Maximum

Mini-Trigger Microtorch

Stock No. 541

- Removable base for table-top or hand-held use
- Use to ignite materials, melt plastic, shrink tubing, solder & desolder, terminate specialty terminals, connectors and more
- "Hands-free" slide lock allows for continuous use and instant off operation
- 60 minutes continuous run time with a full charge
- Durable self-contained, refillable, plastic fuel tank
- Butane not available - shipped dry

2500°F (1300°C)

Table-Top Butane Powered Microtorch

Stock No. 540

- Built-in self-igniting system with safety lock
- Wide, heavy and stable base for bench-top use
- Refillable metal fuel tank
- 60 minute continuous run time with full charge
- Adjustable broad or pinpoint flame
- 5.1"L x 3"W x 3.5"D
- Net weight: 12 oz.
- Butane not available - shipped dry

Flame Temp:
2500°F (1300°C)

Application

- Shrink tubing, solder

Industrial Model Heat Gun

Stock No. 501

- Aluminum die-cast construction
- Adjustable air intake controls air flow and temperature
- Heating element easily replaced
- Non-slip rubber base allows precise positioning

700°F (371°C)
500°F (260°C)

Replacement Heat Element

Stock No. 502

Shrink Tube Reflector,

to 3/4" O.D tubing Stock No. 503

Shrink Tube Reflector,

to 2" O.D tubing Stock No. 504

120V
14A

Typical Shrink Tube Reflector

Heat Gun Kit

Stock No. 532

- Economical lightweight and multi-use heat gun
- Includes storage case, heat gun and 4 attachments: reducer, reflector, small spreader and large spreader
- 1200 watts maximum
- Heat element is not replaceable
- Automatic safety shut-off feature when gun gets too hot

Heat Gun Only

Stock No. 530

Reflector

Stock No. 531

Typical Shrink Tube Reflector

LCD Programmable Heat Gun & Accessories

Stock No. 626

- Rugged and light-weight ergonomic heat gun prevents operator fatigue
- Programmable digital display of temperature and air flow
- Adjustable heat in 10° increments
- Bench stand and multiple attachments available

1000°F (540°C)
130°F (50°C)

Application

- Perfect for production applications requiring consistent application of heat

Proheat Dual Temp Heat Gun

Stock No. 630

- Compact, light weight, and very easy to use
- Dual heat: 500°F (260°C) and 1000°F (540°C)
- 16 cubic feet/minute (CFM) air flow

1 3/8" Attachment for Shrink Tubing

Stock No. 627

1/2" Attachment for Shrink Tubing & Connectors

Stock No. 628

Heat Gun Bench Stand
Stock No. 629

Warranty does not cover heat elements and does not apply if the unit has been misused, abused or altered.

CORRUGATED LOOM |

Typical assembly with split corrugated loom

- Convoluted surface protects against abrasion and pinching
- Variety of sizes and types available in split or non-split
- Split loom easily slides over assembly and closes for a permanent installation

More sizes and colors may be available on special order. Call 800-328-2724 for details.

Application

- Used to protect wire, cable, tubing and hoses

Gaylord quantities available upon request.

METAL BRAIDED SLEEVING

- Perfect for shielding on harnesses and cables
- Conforms to ASTM-B 33
- Provides electromagnetic interference, radio frequency interference, electrostatic discharge protection
- Complies with CID A-A-59569, formerly Mil Spec QQB-575
- Expands for easy installation
- Cut and abrasion resistant
- Extreme blowout protection
- Tinned copper sleeve for shielding, grounding and decoration

HUMMEL LIQUID TIGHT NYLON STRAIN RELIEFS |

212°F (100°C)
 -40°F (-40°C)

- Resistant to most chemicals and solvents
- Flex nut style prevents cable kinking
- Easy installation: push thru cable strain relief and tighten dome nut
- Use minimum size strain relief that fits your cable
- Concentric O-Ring groove in NEMA application with knockouts
- Seal ring guarantees NEMA 4x and 6 specifications (IP68)
- IP69K splash proof rating

Application

- Ideal for control cabinets, marine applications, car washes, hot tubs, instrumentation, underground for direct burial and submersed up to 300 ft.
- Available for ATEX applications

POWER POINTS

Auxiliary power sources and accessories provide a power point for cellular phones, worklights, radios, air compressors, portable televisions, etc. Waytek offers both power points and plug adapters. Designed for use with any 12 volt vehicle including boats, motor homes, cars, trucks, snowmobiles and more.

Dual 2.1A USB Port Output Power Point

Stock No. 11017

- Suitable for tablets, smartphones, and other devices
- 12V enables use in off-road vehicle or motorcycle
- Easy panel mount installation
- Self closing spring cap
- For use in marine, utility vehicles, golf carts and construction vehicles

Dual USB Port Charger

Stock No. 11018

- 3.15 Amps for faster charging
- Dual USB charging ports
- 10,000 operating cycles per port
- Typical Applications: On/Off-highway equipment, golf carts, lawn and garden equipment, marine, military

Dual USB Power Charger 2 Port

Stock No. 11019

- Output: 2 port USB 5V - 2.4A/2.4A
- Black nylon
- Water proof sealing cap

Dual 2.1A USB Charger and 20A Power Receptacle

Stock No. 11014

- LED power indicator light for USB
- Water resistant cover protects against dust and water
- Insulated terminals included

Dual USB Power Charger

Stock No. 11013

- USB outlet and charger for automotive applications
- .25" quick disconnect male tabs
- 29 mm mounting hole diameter

Dash Mount Receptacle Kit

Stock No. 11016

- Designed for under dash use
- Outlet can snap into mounting hole without bracket
- Kit includes adapter, lead wires with splice connector, mounting bracket, and hardware

Power Source

- One piece housing
- Integrated interior contact point
- ¼" push on terminals
- Connects with Metri-Pack 56 Series Stock No. 38003, and female terminals on page 39
- Mounting hole .86" dia.
- Order parts separately Housing **Stock No. 11010** Cap **Stock No. 11011**

All Weather Power Source

Stock No. 11015

- Compact all-weather power outlet
- Dependable source of power for electrical accessories using a standard adapter plug
- Includes spring loaded flip cover, mounting bracket and 12" power leads

Power Receptacle

Stock No. 11012

- Plastic power source with attached dust cap
- ¼" push on terminals
- Mounting hole 1.09" dia. with max .078" thickness

Marine Grade Receptacle

Stock No. 11020

- Corrosion resistant marine grade materials
- Watertight sealing cap

Male Adapter Plug

Stock No. 11030

- Fits into power points or cigarette lighter
- Includes plug and two solderless terminals

Male Adapter Plug with 8' Cord

Stock No. 11031

- 8' of 20 ga wire
- New or rewiring applications

ROSTRA SENTRY PRO-GRADE BACK-UP CAMERA SYSTEM | NEW

Rostra is a premier manufacturer with years of experience supplying top quality components for commercial and fleet safety equipment. Rostra commercial grade back-up camera systems offer a choice between 5" or 7" monitors with CMOS integrated tailgate handle cameras. The backup camera systems provide vehicles with an added dimension of safety for drivers. Our partnership with Rostra allows us access to all of Rostra's cameras and monitor products, including their line of rear view mirrors with built in monitors.

7" Multi-Input LCD Stand-alone Monitor
Stock No. 93000

- 3 built-in grid line settings (wide, narrow, off)
- Reverse/forward image settings by channel
- Input DC power from 10-30V
- PAL and NTSC display capability
- Thread-together connections for better reliability
- 800 x 480 LCD screen resolution; 500:1 contrast ratio

5" TFT LCD Monitor
Stock No. 93001

- Selectable on-screen grid lines
- Operating voltage: 10-15V
- 700mA power consumption
- 5G Shock resistance
- 15.9 widescreen aspect ratio
- 1400 x 234 screen resolution

4-Pin Camera Video Output
Stock No. 93013

- Use to mount Rostra with other camera systems

HD Backup Cameras
Stock No. 93010

Rostra 12V backup cameras use CMOS color cameras with a 1/4" lens to provide high-quality picture for commercial and fleet vehicles. Thread-together connectors provide a weather proof seal.

- Hinge Mount CMOS Color Camera
- 4-pin threaded plug with 41" pigtail harness
- 170 degree peripheral view
- IP 69 water and dust-proof
- Stainless hinge bracket and mounting hardware
- Infrared LEDs for night vision
- Adjustable lens hood
- Stainless steel camera body is an industry exclusive

2 PRONG PLUG CONNECTORS - 100' SPOOL

- 100 two prong plugs per spool
- Quickly and easily install a series of indicator light for trailers
- Saves time and money by not having to individually wire each light
- All lights done in 1 step
- Works with: 2.5" sealed round lenses, 2" sealed round lenses, double bulls-eye lenses, 4" rectangular lenses

Stock No.	Spacing
47716	6"
47717	10"
47718	12"

STICK-ON REFLECTORS

3" Round Reflector

- Red **Stock No. 47790**
 Amber **Stock No. 47791**
- Adhesive backing protects prism against dirt

4.5" Rectangular Reflector

- Red **Stock No. 47792**
 Amber **Stock No. 47793**
- Fits narrow rails and tight spaces
 - Mountable by adhesive back or 2 #8 screws

3M™ DIAMOND GRADE™ REFLECTORS

- Low profile-not easily knocked off and continue to function when damaged
- Meets and exceeds DOT and SAE-A requirements for reflex-reflectors
- Superior angularity beyond 60°
- Prismatic lenses in a durable transparent synthetic resin
- Pressure sensitive adhesive and clear poly liner

LED BEACON LIGHTS

Star Halo LED Amber Beacon Stock No. 47942

- Class I California Title 13
- Rugged die-cast metal, universal flange base
- Durable polycarbonate, twist on/off lens
- 24 customer selectable flash patterns
- Cigarette plug with on/off switch and pattern select switch
- High/low intensity - manual or automatic
- Extremely low current draw
- Completely encapsulated circuit for increased weather and shock resistance
- 0.6 amps @ 12V, 0.3 amps @ 24V
- Mounting hardware included

12-24V

Halo Amber & Blue LED Beacon Stock No. 47966

- Tall clear SAE Class I
- Dual Color Gen IV LED's (four of each color)
- 24 customer selectable flash patterns including rotating patterns
- Extremely low current draw
- Completely encapsulated circuit for increased weather and shock resistance
- 0.7 amps @ 12V, 0.35 amps @ 24V
- Mounting hardware included

12-24V

Halo Mini Amber LED Beacon Stock No. 47964

- SAE Class I Low Profile
- Durable polycarbonate, twist on/off lens
- 12 customer selectable flash patterns, including steady-on
- Extremely low current draw
- Completely encapsulated circuit for increased weather and shock resistance
- Heavy duty die-cast base
- Cigarette plug with pattern select
- Voltage: 10-16VDC
- Amp Draw: 0.5 amps @ 12VDC
- Mounting hardware included

Mirror Mount Bracket Kit Stock No. 47967

- Beacon 1/2" NPT 3/4" Post Only
- Works with Stock No. 47942, 47964 and 47966

DOME MINI LED LIGHT BAR

- Extremely low profile
- Super bright M-Tech Plus® LED technology provides superior warning light image
- Durable polycarbonate
- Injection-molded domes are fully gasketed to protect against moisture
- Conformal coated circuitry protects against shock and vibration
- Voltage: 10V - 30VDC
- Amp Draw: 2.3 amps (max)
- Dome Color: Clear or Amber
- Mounting hardware included

E-SWITCH | NEW

The PV series features an impact resistant metal body and actuator with an IP65 rating, an extended life expectancy, and a clean aesthetic look - including multiple lighting options. The PV Anti-vandal switches combine sleek looks with enhanced durability enabling you to modernize the look of your product, regardless of the environment. Popular applications for anti-vandal switches are outdoor ticket dispensers, marine, emergency vehicles, off-road vehicles, and industrial products.

- These switches are not just for anti-vandal applications as they also work in any harsh environments requiring impact resistance
- E-Switch has switches to meet a wide variety of design needs
- Electrical life: 200,000 cycles
- Certifications available: UL, CDA, RoHS, and Conflict Minerals
- IP65 rating for water and dust resistance

Anti-vandal Switches

Contoured Actuator

CIRCUIT TYPES |

SP Single Pole

A switch device that opens, closes or changes connection in a single conductor of an electrical circuit.

DP Double Pole

A switch device that opens, closes or changes connection between two conductors of an electrical circuit.

ST Single Throw

A switch that opens, closes or completes a circuit at only one of the extreme positions of its actuator.

DT Double Throw

A switch that opens, closes or completes a circuit at both extreme positions of its actuator.

TT Triple Throw

A switch that opens, closes or completes a circuit in three positions.

See Contura Rocker Switch Accessories on page 95.

CONTURA SWITCH BODIES | Carling Technologies® Innovative Designs. Powerful Solutions.

- Select the switch body needed for your application
- Removable actuators in a variety of styles sold separately See page 94
- Easy installation: actuators snap onto switch body
- Lighted switches are incandescent, unless noted

CONTURA ROCKER SWITCH ACCESSORIES

Four panel configuration with one switch shown

Single Mounting Panel

Stock No. 44382

- Used for a single switch mount along with the multiple panel for a consistent look
- 1.34" W x 2.30" H
- Mounting hole: .98" W x 1.90" H
- Be sure to test cut a hole in the actual panel material

Stock No. 44382

Mounting Panel Plug

Stock No. 44385

- Used to plug vacant switch locations
- .96" W x 1.91" H

Panel Gasket

Stock No. 44380

- Required for sealed panel applications
- Multiple gaskets are needed in some situations depending on the thickness of your panel

Mounting Panel End

Stock No. 44387

- 1.19" W x 2.30" H
- End unit reverses to fit either side of the middle unit

Mounting Panel Middle

Stock No. 44388

- Used where multiple switches can be installed with only one hole to cut in your panel
- 1.03" W x 2.30" H
- Mounting hole for two units: 2.03" W x 1.90" H
- Add 1.03" width for each additional unit

End Unit

Middle Unit

ROCKER SWITCHES

Illuminated Round Rocker Switches

5A

Marine Extra Heavy Duty

Stock No. 44156

- Normally open, SPST, Off - Momentary On
- On with button depressed, spring return to Off
- Corrosion-resistant brass case
- Plunger button and mounting hardware
- Moisture repellent insulators
- Chrome-plated buttons and face nuts, except where noted
- Two brass screw terminals
- Mounting stem; brass 5/8"-32 thread, 1 3/8" (34.9mm) long, fits panel up to 1" (25mm) thick
- Silver contacts

UNIVERSAL COOLANT LEVEL SENSOR

- Compatible with Ethylene Glycol and Extended Life Coolants
- Discrete outputs reduce interface development time
- Standard 1/4-18 NPT mounting thread size
- Can be mounted in any orientation in plastic or metal reservoirs
- 20 Max PSI
- Applications: heavy truck, passenger vehicle, industrial, construction and marine

257°F (125°C)
-40°F (-40°C)

Stock No. 76330

BACK-UP ALARMS

- Medium duty
- 3' 18 ga wire lead connections
- Steam cleanable/pressure washable
- Meets State, Federal and U.S. Army Corps of Engineers' requirements

Stock No. 48019

- 107db at 4'
- Compact Size: 4"W x 2.5"D x 3"H
- Mounting: 2 slots .5"L x .25"W and 2 slots .75"L x .25"W slots on 3.25" centers

- CE & E-mark Certified for EMC
- Voltage spike and reverse polarity protected
- Compact size for horizontal or vertical mounting in protected areas

Stock No. 48020

- 97 db at 4'
- Compact Size: 4"W x 1.25"D x 2.5"H
- Mounting: 4 slots .5"L x .25"W slots on 3.25" centers

Data Bus Reverse Alarm Ford Transit DBT-LD-C SPC218

Stock No. 80035

- Alarm Output: +12 volts at 3 amps, set when vehicle is in reverse
- Dimensions: 3.165"L x 1.94"W x 0.798"H
- For use with Stock No. 48020

Back-up Alarm Switch

Stock No. 48022

- For vehicles without an automatic back-up switch circuit
- Mount adjacent to reverse switch
- Spring loaded lever permits over-travel
- Normally off

MOMENTARY GROUNDED DOOR JAMB SWITCHES

Stock No. 44008

- Normally off grounded momentary door switch
- On-(off) with plunger depressed, spring return to off ground
- Single circuit
- Mounting: 5/16" -18 thread, stem 1/2" long
- Plunger: 7/16" long

12V
5A

Stock No. 44009

- Normally off grounded momentary door jamb switch with rubber foam sleeve
- On-(off) circuit is open with plunger depressed, spring return to ground
- Two circuits grounded simultaneously
- Mounting: 3/8" -24 thread, stem 7/32" (5.6 mm) long
- Plunger: 3/16" (4.8 mm) long self adjusting to 1/4" (6.4 mm) long

12V
5A

HORNS

- Offered in the novel fanfare style for 12V and the mini-disc style for 24V
- Compact size for tight mounting conditions
- Mounting bracket
- Corrosion resistant and waterproof
- Electrical contacts are standard 1/4" blade terminals
- .3165" dia. hole on fanfare styles

24V

Mini-Disc Horn

Stock No. 48062

- Low pitch (335 Hz)
- Stock No. 48063**
- High pitch (435 Hz)

Stock No. 48054

- Low pitch (400 Hz)
- Stock No. 48055**
- High pitch (500 Hz)

UNIVERSAL 12V DC BUZZER IMPACT-RESISTANT CASE

Stock No. 47630

- Universal Buzzer for hundreds of uses, including door ajar warning, bus driver alert, low air pressure, temperature, and more
- Works with any temperature, pressure, door switch or momentary push button switch
- Electrical contacts are designed for instant response and uninterrupted signal
- Impact-resistant ABS resin case with moisture repellent insulator
- Two screw terminals with lock washers
- 1 7/32" L x 2 1/2" W x 2 17/32" H

12V

BUZZER & RED LED PILOT LIGHT DUAL ALARM

Stock No. 47631

- Combination buzzer and pilot light
- Gives audible and visible alert
- Rugged design with metal body, red lens and long-life LED
- 1 1/16" diameter mounting stem
- 1 7/32" long
- 1 7/8" long x 1" wide x 1 11/32" high body
- Universal application; use with any electrical switch

SOLID STATE DISCONNECT SWITCHES

Solid State Battery Disconnect

- Remotely operate high current circuits
- Battery power shut off
- Replaces under seat battery disconnect switch
- Control circuit reverse battery protection +12V control & ground inputs
- Internal diode protection for inductive load switching
- Dimensions: 5.25L" x 4"W x 2.375"H
- Power lugs: 3/8"-16 brass studs
- Environmentally sealed
- Solid state design

Stock No.	Max Current	Max Inrush	Mating Connector Required
44405	200A	500A @ 1.0 sec	(2) 1/4" female push-on connectors (ex: 30511 pg 20)
44406*	200A	500A @ 1.0 sec	38170 Amphenol 2-pin plug
			38183 Amphenol 2-pin Wedge Receptacle
			38197 Pin Terminal 14-16 Ga
			38195 Pin Terminal 16-18 Ga
44407	300A	500A @ 1.0 sec	(2) 1/4" female push-on connectors
44408*	300A	500A @ 1.0 sec	2-pin Amphenol AT Series Plug (same as 44406)

*Pigtails included

BATTERY DISCONNECT SWITCHES

Stock No. 44033

- Non-fused current interrupt disconnect
- Opens circuit between a battery and the complete electrical load
- Max surge 2000 amps on 20% duty, with 5 seconds on time
- 1/2" brass, tin plated stud
- 8"W x 4.19"H

- Cuts off all battery power from the vehicle electrical system
- Protects vehicle from tampering, theft and battery drain

Top Mount-Opens Vertically Stock No. 44090

Top Mount-Post with Wing Nut Stock No. 44091

Stock No.	Mounting	Dimensions
44090	Top Mount-Opens Vertically	3" W x 4" L x 2" H
44091	Top Mount-Opens Vertically - Post with Wing Nut	3" W x 4" L x 2 3/4" H
44092	Side Mount - Opens Down	3 3/4" W x 3 3/4" L x 1 1/4" H
44093	Remote Mount - Opens In-Line	3" W x 4" L x 2" H

Solid State DC Contactors

- Compact size and low profile solid state design
- Status LED indicator: steady on when contactor is on and operating normally, flashes when contactor has automatically turned off or detected loss of ground, over-current, under-voltage or over-temperature
- Control Input Voltage: >+8.0VDC to activate, <+4.0VDC to deactivate
- Dimensions: 2.85" x 4.35" x 1.10"
- Control Input utilizes 1/4" male disconnects
- 3/8"-16 stainless steel stud

Max Temperature
110°F (43°C)

NEW

Stock No.	Max Current Type A Mounting	Max Current Type B Mounting
44401	100A	75A

Type B Mounting: wood, plastic or air

ELECTRONIC AUXILIARY BATTERY SWITCH (ABS)

- Ideal for charging auxiliary battery and isolating it from vehicle's chassis battery and alternator
- Solid state technology
- Prevents over-current, over temperature and under-voltage
- Higher operational life than diode based battery isolators and mechanical solenoids

Amp	Stock No.
100	44410
150	44411
175	44412

HIGH AMP REMOTE RELAYS

- Supports remote power switching applications that demand high continuous current passage, large inverter loads, high temp situations
- Designed for harsh weather, high shock and vibration environments
- Ideal for heavy-duty vehicles, construction and ag equipment, trucks, military vehicles and heavy lifting equipment
- High performance in a compact size

IGNITION SWITCHES

- Four position - Stock No. 44061**
- Ignition start switch with die-cast case with keys
 - Mounting stem: 3/4" dia, 3/4" long
 - 14V DC: 8A/30A Inductive Ign
- Stock No. 44062**
- Keyed with PK-556 keys

Stock No.	Positions	Switch Style	Keyed
44065	2	On-Off Lock Switch	Various
44059	3	On-Off-On Key Switch	PK-556
44064	4	Lock Switch with Lockout Feature	PK-556
44066	2	On-Off Lock Switch	PK-556

- Four position - Stock No. 44179**
- Zinc diecast coded tumblers
 - Mounting stem: 3/4"-20
 - 12V DC: 10A Accessory, 10A Ign, 5A Start

HEAVY DUTY ROTARY REVERSING SWITCH

- Stock No. 44035**
- DPDT spring return to Off from both On positions
 - Allows forward/reverse motion of a motor without the need for a relay
 - Heavy Duty component parts: 3/32" thick terminals, silver-laminated contacts
 - 10-32 (9.5mm) terminal screws with lockwasher
 - Mounting stem 1/2"-20 thread

ENGINE START/ENGINE STOP MOMENTARY SWITCHES

- Die-cast housing, with knurled aluminum face nut
- Two screw terminals with lock washers
- Mounting stem 7/8"-24 thread
- Keyed to prevent switch from turning

- Stock No. 44157**
- With black 'Start' button

- Stock No. 44158**
- With red 'Stop' button

E-STOP, PUSH BUTTON & SELECTOR SWITCHES

- Available in 1-hole, 2-hole and 3-hole enclosures
- Weather resistant, IP65 rated

Control Station Enclosures

Stock No. 44148

Stock No. 44149

Stock No. 44150

Stock No. 44151

- 4-hole and 5-hole enclosures available on special order

- Switch operators made of aluminum and zinc alloy
- Contact elements snap onto the mounting adapters of the switch operators and are keyed to ensure proper alignment
- Modular construction with rear locking screws

- Contact elements are stackable depending on control station depth, recommended max stack is 2 control elements deep
- Actuator sealing gasket has a gripping action to hold actuator securely in place once assembled

RELAYS

Recommended Wire Sizes For All Relays

SAE Wire Size Gauge	Permissible Continuous Current (approximate values)	
	At 77°F (25°C) Amps	At 122°F (50°C) Amps
20	12	8.0
18	16	10.6
16	20	13.3
14	30	19.6
12	34	22.6
10	51	34.0
8	68	45.0
6	91	60.5
4	121	80.0

These values are to be used only as a guide.

- High quality automotive relays available with current carrying capacity of 10 to 100 amps
- Types stocked: power, mini, micro and ISO 280 relays
- All have push-on type terminals, except for power relays which have push-on terminals for coil circuit contacts and screw terminals for power circuit contacts
- SPDT is normally closed
- SPST is normally open

MICRO RELAY CONNECTORS

- Heat stabilized thermoplastic connectors for relays
- Terminals (when supplied with connector) are brass, bright tin plated
- Connectors for panel mounting can be stacked together

Stock No. 75290

Stock No. 75292

Stock No.	Former Bosch Part No.	Connects To	Mounting	Terminals Required
75290	3 334 485 045	5 Pin Micro Relay	Panel	Three of 30075 & two of 31073
75292	3 334 485 049	5 Pin Micro Relay	PC Board	Included

ORDERING NOTES:

Terminals must be ordered separately unless shown as included.

See terminals on page I07.

MINI FACTOR SEALED CONTACTOR

- Small, lightweight and cost effective
- Max operating voltage: 1500 Vdc
- Max continuous current carry; @ 65c: 50A / @ 85c: 25A
- Max operate time: 25ms
- Max release time: 8ms
- Hermetically sealed contactor: ensures make/break switching up to 1200Vdc

SOLID STATE TIMER RELAYS / VEHICLE CONTROL MODULES

- Small compact size
- Durable sealed metal case
- Time delay settings can be set with single turn adjustment
- Power outputs provide over current fault shut down protection
- Activating either Input A or Input B sets output
- Wiring connections are standard automotive 1/4" push-on terminals

12V
15A

Stock No. 75532

Stock No. 75535

Dual Inputs

- On-Delay - output is reset after input is deactivated
- Off-Delay - out is reset at time delay after the input is deactivated
- One-shot - when either input A or input B is activated, output is set for a time delay, will be timed on regardless of length of input activation

SOLENOIDS

- Switch high electrical current when a much lower current is applied to its electromagnet coil
- #10-32 thread and 5/16"-24 thread copper terminals
- Hex nuts and lock washers included
- Insulated solenoids have studs that are electrically isolated from the housing
- Grounded solenoids have one of the studs internally connected to the housing

**Stock No. 77002
Plated steel housing**

**Stock No. 77023
Typical weatherproof solenoid with plasticized steel housing**

POWER RELAY MODULES

Power Relay Module - Connector Output Stock No. 46094

- Use with Output Connector Stock No. 46043 (shown below)
- Connect to Packard's Metri-Pack 150 series #38201 (page 40) sold separately
- Capable of switching and protecting high current loads
- Internal circuiting simplifies harnessing (reduces overall cost)
- Designed for high current applications, extreme moisture and high vibration environments
- 2 J-Case Fuses - sold separately

Typical Finished Packard Metri-Pack 800 Output Connector

Packard Metri-Pack 800 Output Connector Components

60 AMP POWER DISTRIBUTION MODULE

Stock No. 80121

- Innovative, fully user-programmable power distribution module
- Eliminates potential for current draw related problems
- Connect to auxiliary circuits, aftermarket devices and accessories like driving lights, computers and more
- 60 amps max; programmable circuit limits are as follows: 3/10A, 2/15A and 1/20A
- IP68 rated for harsh environments
- 2" H x 3" W x 0.9" D, very compact, about the size of a business card
- Never chase a blown fuse again! If a circuit is shorted or interrupted, simply key off and then on again, all circuits reset.

12VDC

MASTER DISCONNECT SWITCHES

Sealed battery disconnect switches available in two styles: key operated and lever operated. For 6-36 volt and 180 amps continuous or 1,000 amps in-rush. One piece die-cast housing is 2 5/8" dia. and 4 3/8" long. Mounting stem is 3/4" dia. and 1/2" long. Instructions included.

Lever Operated

Stock No. 44030

- SPST off-(on) for battery circuit only
- Does not disconnect alternator or generator
- 3/8" stud terminals

Lever Operated

Stock No. 44031

- DPST off-(on) for battery and alternator or generator circuit
- Breaks alternator circuit (max of 20 amps) prior to disconnecting battery
- 3/8" and #10-32 stud terminals

Key Operated

Stock No. 44029

- SPST off-(on) for battery circuit only
- Does not disconnect alternator or generator
- Includes indexing post to prevent rotation
- 3/8" stud terminals

Face Plate

- For master disconnect switches with on-off designation
- Polished aluminum with black letters

Stock No. 44032

- For Lever Operated Switches 44030 & 44031

Stock No. 44034

- For Key Operated Switch 44029
- Includes alignment hole

MASTER BATTERY DISCONNECTS

- Heavy-duty case designs for surface, panel or floor trim mount
- Stainless steel hardware and tin-plated copper studs
- Ignition protections to SAE J1171 and ISO 8846 for installation in a battery box or on vehicles carrying hazardous loads
- Internal components protected from harsh weather environments: IP69K ingress protection

Stock No.	Description	Amp	Voltage
44056	Panel Switch	300	32

Battery Selector/Master Disconnect Switch

Stock No. 44043

- Allows use of the first, second or both batteries simultaneously
- Provides back-up starting power in an emergency
- Gives a reliable shutdown of power during maintenance
- Helps protect against electrical fires, when the vehicle is not in use and minimizes battery drain
- 500A intermittent, 310A continuous

6-36V

Cole Hersee
A Littlfuse Brand

Battery Master Disconnect Switch With Lockout

Stock No. 44076

- Protects vehicles against tampering, theft and battery drain
- Protects from hazards during vehicle servicing, and can be locked-out or tagged-out
- Provides an effective emergency power cutoff
- Waterproof and dust proof to IP67 (immersion)
- Fits standard Master Disconnect mounting pattern

12VDC
300A

Emergency Stop Switch

Stock No. 44037

- Heavy duty strike off switch
- Twist to connect, push to disconnect

BATTERY SEPARATORS & INTERCONNECTS

- Designed for use in multi-battery applications as a solenoid priority system
- Allows multiple batteries to be charged from one charging source or alternator
- Prioritized charging, charges primary battery and then remaining batteries
- Uni-directional: charge two batteries from one power source
- Bi-directional: charge two batteries from two sources
- Interconnect/controller: can be used as a uni-directional or bi-directional separator, or low voltage disconnect (LVD), where the solenoid opens when battery voltage drops too low, or an Isolator/Interconnect, which provides isolated charging of two batteries from one source
- Isolates batteries when fully charged
- Protection circuitry absorbs coil generated voltage spikes

Stock No. 80001

- Prevents charging system overload
- Start assist feature parallels batteries for added power during start
- Universally suited for mounting on tow vehicles
- 5/16" x 24 studs

BATTERY ISOLATOR SCHEMATIC |

A Battery Isolator acts as a check valve (through two diode legs), one on each line. Both batteries receive current from the alternator and the voltage will equalize throughout the system while the alternator is in operation.

Accessories connected to battery #2 rob power from battery #1, your starting battery, leaving you with two dead batteries when you least expect it.

BATTERY ISOLATORS

- Designed for vehicles and equipment with multiple batteries – one for starting the engine and another for powering accessories
- Prevents a battery with a higher charge from draining into a battery with a lower charge
- Allows both batteries to be charged simultaneously from one source
- For use in 12-36V DC negative ground systems
- Electronic components are embedded for protection from contamination and vibration
- Integral heat sink provides efficient heat dissipation

12-36VDC

See master disconnect switches on page 113.

3-Stud Battery Isolator

Stock No.	Mfr. Part No.	Amps	Number of Studs	Stud Size in. (mm)	Mounting Holes in. (mm)	Dimensions in. (mm)
77053	48090	90	3	1/4"	2 holes at 9/32"	6 1/4" L x 3 1/4" W x 2 3/16" H

SMART BATTERY ISOLATORS

- Smaller, lighter and less heat generated than standard battery isolators
- Works with all alternator types
- Reduces charging system workload by not connecting auxiliary battery until primary battery is charged to 13.2V
- Allows bi-directional charging from alternator or from shore/campground charging components
- LED status indicator
- Optional start assist – connect to a momentary switch that will allow the auxiliary battery to assist the starting battery
- 5/16" x 24 studs

TRUE SINE WAVE INVERTERS

- For DC to AC power
- Provides clean, reliable AC power in commercial truck, ag equipment and other on and off-road vehicles
- Powers all electrical loads including sleep apnea machines, tools, motors and more
- Meets SAE environmental and EMC standards
- When shore power is available, a built-in 20-amp relay automatically transfers to incoming AC utility power to minimize battery discharge and provide seamless integration; eliminates need for transfer switch
- Optional 12V battery charger with three user selectable charging profiles constant current, constant voltage and float mode
- Adjustable low voltage disconnect
- Remote mount user interface control panel
- Surge current of twice the rated output
- Battery over-voltage, under-voltage protection
- Short circuit, ground fault and automatic overload protection
- Over temperature shutdown

EQUALIZERS

Stock No. 80105

185°F (85°C) (at full current, derated)
-40°F (-40°C) at higher temperatures

Stock No. 80109

- Maintains battery balance or "equalization" in a dual voltage battery system
- Thermal overload shutdown
- Short circuit and over current protected
- Reverse polarity protected
- Over/low voltage protection
- Low standby current drain
- Maintains battery balance while pulling loads from the batteries
- Optional output voltage shift terminal is available to aid in optimizing charging systems and serve as an ignition pin
- LED status indicator is provided to denote when the unit is producing current

ELECTRONIC MODULES |

Cole Hersee Flexmods™ Electronic Low Voltage Disconnect

Stock No. 75525
(Mfr. Part No. 48610)

- Preserves battery charge and protects battery banks by automatically disconnecting loads when battery voltage drops to a critical level

Use with Amphenol AT Series

- 8 pin connector, Stock No. 38178 - AT06-08SA
- Wedge, Stock No. 38190
- 18-16 awg, Stock No. 38194
- 16-14 awg, Stock No. 38196

LOW BATTERY SWITCH |

Stock No. 80029

- Disconnects predetermined loads from the starting battery bank to ensure sufficient power for starting
- Automatically reconnects loads if vehicle is started or battery is recharged
- Prevents loads from disconnecting during starting
- Start signal input override to prevent the loads from disconnecting during starting
- Manual override for connecting or disconnecting during emergencies
- Audible or visual alarm output activates 1 minute before disconnect
- 1/4" male tab contacts, 1/4" studs
- Thermally protected
- Low standby current

↑ 185°F (85°C)
↓ -40°F (-40°C)
(at 20-amp load)

Low Voltage Disconnect Switch with Shut-Off Timer

- Continuously monitors voltage level of a 12 volt power input
- If voltage > 13.25 - power switch turns on
- If voltage drops < 12.8 - time delay is started
- If voltage remains < 12.8 until the timer expires - power switch turns off
- If voltage drops < 11.8 with the timer running - power switch turns off
- Microprocessor controller and solid state output with over-current shutdown
- Standard automotive relay pin format
- Compact size with panel-mount bracket
- Durable metal case
- 1/4" male tab contacts

m-LVD LOW VOLTAGE DISCONNECT |

Stock No. 78008

(Blue Sea No. 7635)

- Senses low battery voltage and automatically disconnects devices to save power for starting or to preserve battery life
- Ideal for any single battery boat or vehicle that wants to avoid getting stranded with a dead battery
- Status light in both m-LVD and remote control switch provides visual warning of low voltage state prior to disconnect
- Remote control switch functions:
 - Disconnect Voltage Adjustment* - Sets desired disconnect voltage
 - Override* - Temporarily delays circuit disconnect for 10 minutes
 - OFF* - Temporarily disconnects circuits until voltage rises
 - Override or OFF* - Silences alarm (optional alarm required)
- Case design allows surface, front panel, or rear panel mounting
- Rear insulating cover protects rear contacts
- Waterproof rated IP67 for temporary immersion
- 12V DC nominal voltage
- Amperage Operating Current: 95mA Connected or 4mA Open

PI2 BATTERY CHARGER

- Rugged finned aluminum case dissipates heat to help keep the battery charger electronics cool
- Universal line voltage 90-265V AC, 45-65 Hz for use anywhere, and is compatible with low voltage power sources
- AC over and under voltage shut down and automatic restart
- Large bright full graphic control screen with user interface
- Plain-language text in English, French, Italian, German and Spanish
- Intuitive diagnostic screens provide a broad range of easily understood fault communications and operating history
- Output for three 12 Volt battery banks
- Prefloat stage prevents over charging by individually moving each battery out of the absorption charging stage, so batteries near full charge do not receive the high constant voltages necessary for other batteries still in the absorption stage

REMOTE BATTERY SWITCH WITH MANUAL CONTROL

- 12V DC 500A ML-RBS
- Manual override knob provides an added level of safety allowing control with or without power and offering LOCKED OFF capability for servicing
- LED output to remotely indicate switch state - requires optional LED
- Silver alloy contacts provide high reliability for switching live loads
- Bi-stable coil function
- 10.1V to 16.5V DC control circuit voltage
- Amperage rating of 500A Continuous and 700A for up to 5 minutes
- Cranking rating:
10 seconds @ 2500A,
1 minute @ 1100A
- 4/0 cable size to meet ratings
- 300A live current switching
- 100,000 cycle endurance

REAR TERMINAL MINI® FUSE PANEL

- Weather tight enclosure with cover
- Housing is made from 94 VO Thermoplastic; #10-32 input studs are made of bright nickel plated brass
- 30A max output per contact
- IP 66-IEC 529 rated
- Accepts wire sizes 22-12 ga
- Use terminals and seals from chart and crimp with tools listed
- Standard height cover fits fuses
- Taller cover fits fuses and circuit breakers
- Use tangless terminals listed below

Stock No.	Description
46077	with standard cover

PDM-AMI FUSE HOLDER

NEW

- Sealed bolt-in fuse holder
- Used for main branch primary fusing and accepts multiple (two, three or four) industry standard AMI fuses
- Using a common input bus bar, requires just one input connection to power all fuses
- Provides efficient power distribution suitable for many batter box and "under the hood"
- Applications including marine, construction, agriculture, heavy trucking, bus and specialty vehicle markets
- IP6K9K rating, some of the highest protection from dust, water splash and pressure spray available
- Features heavy duty housing, silicone gaskets, tin plated copper bus bars, M8 cable, input/output studs and stainless steel compression limiters in the mounting feet
- Designed for high current power distribution, supports fuses up to 200A per channel

AMG HIGH AMP FUSE HOLDERS

Stock No. 46039

- High amp mountable fuse holder
- Comes with black rubber cover for protection
- Cables can be attached from the front, side or the back
- Nuts included, 5/16" thread size
- 1/4" mounting hole

Stock No. 46038

- Convenient mounting for high amp fuse
- Black glass filled thermoplastic construction with black cover for protection
- Includes nuts and washers, M8 thread size
- 1/4" mounting hole

MEGA®/AMG FUSE BLOCK

Stock No. 78161

(Blue Sea No. 5001)

- Insulating cover satisfies ABYC/USCG insulation requirements
- Insulating cover breakouts allow wire access in three directions
- UL 94-V0 base resists high heat
- Fuses sold separately
- M8 stud

32VDC 300A

MEGA®/AMG SAFETY FUSE BLOCK

Stock No. 78162

(Blue Sea No. 7721)

- Ignition protected for installation aboard gasoline or diesel powered boats
- Sealed cover protects fuses from the harsh marine environment
- Insulating cover satisfies ABYC/USCG insulation requirements
- Cover breakouts allow wire access in any direction
- M8 terminal stud/screw size
- Fuses sold separately

32VDC 300A

SEALED HPDB MEGA® FUSE HOLDER

NEW

Stock No. 46319

- Max Voltage: 48 Vdc
- Max Input current: 600A
- Max Current per circuit: 300A
- Separate fuse compartment provides a seal that protects the fuses
- Dimensions: 129 x 125 x 45mm
- Ingress Protection: IP67, IP69K

48VDC 600A

221°F (105°C)
-58°F (-50°C)

FLEX MEGA® FUSE HOLDER

NEW

Stock No. 45616

- Fuse Type: MEGA® - Flex Series
- Mounting Method: Bolt Down
- Flexible Cover

ZCASE Battery Terminal

Stock No. 45596

Assembly Instructions

1. Place the battery terminal on the stud & bus bar assembly. For 2 positions bolt the two pieces together
2. Place ZCASE fused to the battery
3. Mount the assembly to the battery
4. Attach cables with ring terminals over the top of the fuses onto the studs
5. Thread nuts and lock washers to the top of the studs and torque to 12+/-2 Nm

ZCASE Busbar & Stud Assembly

Assembly Instructions

1. Place the battery terminal on the stud & bus bar assembly. For 2 positions bolt the two pieces together
2. Place ZCASE fused to the battery
3. Mount the assembly to the battery
4. Attach cables with ring terminals over the top of the fuses onto the studs
5. Thread nuts and lock washers to the top of the studs and torque to 12+/-2 Nm

- 30 Labels
- 1.438" L x 0.438" H
- See waytekwire.com for label descriptions

REPLACEMENT TYPE II BREAKER FOR GLASS FUSES

- Fits in holders which accommodate 1/4" dia. by 1 1/4" long glass fuses
- Remains open until the trouble is corrected or the power is turned off
- Direct replacement for most OEM applications
- Doesn't reset until the overload is removed or power is turned off

FUSE CLIPS

Stock No. 37060

- For use with 1/4" dia. glass fuses
- Convenient to use in a fuse block when another circuit is required
- 1/4" push-on male blade

Stock No. 37063

- Full circle fuse clip for attaching an extra circuit to a 1/4" dia. fuse
- Thin metal helps not to distort fuse holder terminals

BREAK APART FUSE BLOCKS

- Low cost option to fuse your product
- Supplied in standard length of 12 poles
- Snaps apart for the number of circuits you require

Stock No. 47065

- For AGC type fuses 1/4" dia. by 1 1/4" long
- #6 screw terminal
- Mounting holes .146" dia. on 5/8" spacing

300V
30A

#6 Screw
Terminals

FUSE TESTER

Stock No. 447

- Tests and removes
 - blade (ATC,® ATOF,® ATM and MAX)
 - glass (1 1/4", 1" and 5mm x 20mm)
- Simply slide the removable probe to appropriate fuse length to test fuse in fuse block
- If fuse is good, a green light turns on
- If there is no light, the fuse is blown
- Continuity tester or for fuses in circuit

24V

Tripuller/Fuse Puller

Stock No. 580

- Allows for easy fuse removal and replacement
- Extracts glass or ceramic, ATO® and MINI® style fuses from fuse blocks

T-TRON™ CLASS T FUSE CURRENT LIMITING FAST ACTING |

- Small, space-saving fuses provide a high degree of current limitation on short-circuits for excellent component protection
- Commonly applied in electric heat circuits, load center, disconnect switches, and meters
- Small size of the JN Class T fuses permits installation in panelboards and control centers for system upgrading when existing circuit breakers cannot safely interrupt larger available short-circuit currents
- High speed of response for semiconductor protection

7-Breaker Junction Box

Stock No. 46560

- Works with standard Type I and Type II metal circuit breakers without brackets
- Height: 2.55"

Includes:

- 4 hex screws
- 4 hole plugs
- 14 keps nuts
- 2 wire grommets
- Junction box

CIRCUIT BREAKERS

RESET METHODS

- Type I Automatic Reset**
Breaker keeps cycling on and off until the overload is removed
- Type II Modified Reset or Non Cycling**
Breaker doesn't reset until the overload is removed or power is turned off
- Type III Manual Reset**
Breaker must be manually reset, trip indication shown on body
- Type III Switchable**
Similar to manual reset with a manual trip

IGNITION PROOF PANEL MOUNT CIRCUIT BREAKERS

- Designed for the harshest of environments
- Weatherproof and ignition proof characteristics are especially well suited to application in marine, heavy equipment, trucks, buses and battery chargers
- Double break design to achieve increased short-circuit interruption capability
- Push-to-reset actuator is trip-free, ensuring it cannot be forced to continuously maintain closed circuit if an overload condition exists
- American Boat and Yacht Council (ABYC) rated

SWITCHABLE CIRCUIT BREAKERS

- Mechanical Products Series 24 circuit breaker switch
- Ideal for applications that require an "on/off" circuit breaker switch and circuit protection in small enclosures
- Economically designed with superior performance
- UL 1077 recognized circuit breaker
- 1 or 2 pole switchable push-to-reset circuit breaker
- Trip-free
- Snap-in panel mount

HI-AMP CIRCUIT BREAKERS |

- Available in surface mount or panel mount design
- Surface mount design comes in four styles: automatic reset, manual reset, Series 185 and Series 285 switchable with a manual trip feature
- Series 185 switchable and manual reset styles feature a black reset lever for indication of a tripped condition
- Series 285 switchable style features a unique yellow lever for easier indication of a tripped circuit
- Plastic housing is approved for engine compartments or marine bilge area applications

- Typically used for auxiliary and accessory circuits on trucks, buses, recreational vehicles, marine, and construction equipment
- Single pole thermal type breakers and automatic breakers are rated up to 30V DC
- 1/4"-28 studs and surface mount style have rubber boots for insulating the ends
- Series 285 switchable style stud placement increases between stud and breaker body for easier terminal installation

MECHANICAL PRODUCTS SERIES I9 CIRCUIT BREAKERS

NEW

- Can be used in harsh applications rated at 12 & 24 VDC
- Superior moisture sealing for use in harsh water environments
- Quick panel mount installation
- Superior ingress protection
- Robust high temperature thermoplastic case
- 1/4 - 28 plated brass terminal studs with stainless steel sems nuts
- UL Recognized - UL 1077
- IP67 - water immersion up to 1m
- IP69K - high temperature water pressure

- Convenient way to store and use a variety of ties
- UL recognized and Mil-spec approved

CABLE TIE TIPS

- Restraining devices are locking. (They should remain secure for the expected service life of the product.)
- The end of the tie wrap is cut (1) off not greater than one tie wrap thickness and is reasonably square to the face of the tie wrap.
- Restraining devices do not move.
- Restraining devices do not cause noticeable indentation or distortion of the wires of the assembly.
- Spacing of restraining devices is uniform.
- Spacing (S) of restraining devices from the rearmost connector accessory or between each other is 3 diameters of the wire bundle or 10 cm [4 in] whichever is less.

Stainless Steel Tie Gun Stock No. 423

- Ergonomically designed tool comes with foam grips
- Works with all of the stainless steel ties shown

RECLOSABLE FASTENERS |

3M™ reclosable fastening systems replace conventional fastening methods to add greater convenience and easier accessibility while saving steps and costs in the production process.

3M™ Hook and Loop Fasteners

- Saves production costs
- Pressure sensitive woven strips with general purpose adhesive backing
- Stiff hook strip presses together with pliable loop strip
- More convenient and easier to use than conventional latches, snaps, and screws
- For high-strength fastening, Stock No. 92001 can mate with Dual Lock Stock No. 92002

Additional styles and sizes may be available on special order. Call 800-328-2724 for details.

Application

- Used in electronics, transportation, sporting goods and manufacturing industries

Bulk Rolls				
Stock No.	Type	Color	Size	
92000	Hook	Black	1"x50 yd roll	
92001	Loop	Black	1"x50 yd roll	
Mini-Packs				
Stock No.	Type	Color	Size	
92004	Hook & Loop	Black	1"x4.9 yd roll	
92005	Hook & Loop	White	1"x4.9 yd roll	

Fast, easy open-and-close action makes these products ideal for dozens of applications where hooks, latches, snaps, zippers, dials, screws, bolts and other fastening methods once prevailed.

3M™ Dual Lock™ Reclosable Fastener

- Offered in pressure sensitive adhesive plastic strips or non-adhesive rounds
- Saves production costs
- More convenient and easier to use than conventional latches, snaps, and screws
- Can mate to itself
- 5 times more holding power than hook & loop

Additional styles and sizes may be available on special order. Call 800-328-2724 for details.

Application

- Used in electronics, transportation, sporting goods and manufacturing industries

Base	21251	----	Screw	10	5/8 x 7/8 x 3/8	.310
	21252	----	Screw	.25	5/8 x 7/8 x 3/8	.310

All dimensions in inches.

Push Nylon Mount Base

- Stock No. 21253**
- Mounts in a 1/4" hole in material up to 7/64" thick
 - Accepts .190" maximum width tie

- Stock No. 21254**
- Fits a 1/4" diameter hole
 - Features concentric circle barbs for extra holding strength
 - For ties up to 3/8" wide

FIR TREE MOUNT AND CABLE TIE ASSEMBLIES | HellermannTyton

Stock No.	HellermannTyton Part No.	Tensile Strength	Length (L)	Max. Bundle	Mounting Hole	Panel Thickness	Mount Length (L2)	Mount Length (L3)	Mount Width (W3)	Mount Height (H2)

21374	111-85871	50 lbs.	8	1.75	.256-.276	.031-.276	.460	.750	.200	.500

All dimensions in inches.

- Provides a secure grip in a mounting hole
- Protects against dirt and other impurities
- Slides along the strap of the tie for proper orientation
- Low insertion force and high extraction force
- Comes pre-assembled with black cable tie
- Polyamide 6.6 heat stabilized (PA66HS) / Polyamide 6.6 high impact modified, heat stabilized, UV resistant (PA66HIRHS)

CABLE HARNESS MOUNTS | HellermannTyton

- Use either tape or cable tie to mount onto harness, then push into a hole on the panel
- .31" of movement on either side of center to allow for alignment adjustments

Fir Tree Push Mount Stock No. 21204

(HellermannTyton No. 151-02901)

Cable Ties

EDGE CLIPS | HellermannTyton

- Designed to route bundles by securing them to the edge of a plastic or metal sheet without the need for a mounting hole
- Easy to secure
- High extraction force due to the integrated metal clamp that holds the edge clip in place
- UV resistant, heat stabilized
- Comes pre-assembled with a 50 lb. tensile strength black cable tie

221°F (105°C)
-40°F (-40°C)

Stock No. 21301 Shown

Stock No. 21301

Stock No. 21302

Stock No. 21303

Stock No.	HellermannTyton Part No.	Tensile Strength	Approx. Length	Approx. Max Bundle	Approx. Panel Thickness	Description
21301	156-00539	50 lbs.	8	1.8	.039-.117	Wire bundle runs parallel to edge
21302*	156-00861	50 lbs.	7.9	1.8	.039-.117	Wire bundle runs perpendicular to edge
21303	156-00864	50 lbs.	8	1.8	.039-.117	Side mounted tie; wire bundle runs parallel

ORDERING NOTE: *Attached cable tie is outside serrated to reduce bundle chafing. All dimensions in inches.

HI TORQUE HEAVY DUTY MOUNT | HellermannTyton

Stock No. 21294

- High impact heat stabilized UV resistant nylon
- Metal insert allows added security
- 3/8" mounting hole (insert)
- Accepts up to 1/2" width cable tie
- Works best with the Super Tie, Stock No. 21295, sold separately

Application

- Mount wire harnesses, cable assemblies and hoses
- Designed for use with power-assisted impact wrenches

Typical Application

DUAL CLAMP TIES | HellermannTyton

- High impact heat stabilized nylon material
- Ensures parallel spacing between cables and hoses; keeps them from rubbing against each other and deteriorating

Application

- Used in many cars, trucks and trailers where high tensile strength and flexibility is needed

Black Stock No.	Nominal Length	Nominal Width	Bundle Dia. Max. ea. Side	Tensile Strength	Stud Size	Standard Package
21088	13	.500	1.3	150 lbs.	1/4"	50
21089	19.2	.500	2.3	150 lbs.	1/4"	50

All dimensions in inches.

AXIAL OVAL MOUNT | HellermannTyton

- Accepts ties from .18" to .50" wide
- Mount hole designed to fit a 5/16" bolt

Stock No. 21260
(HellermannTyton No. SAM83HIRHS1)

Application

- Stand off bundles from frame rails and cross members to prevent them from rubbing and chafing

WIRE RETAINER for Harness Boards | HellermannTyton

- Stand-off wire and cable bundles for easier cable tie applications
- Maximum bundle .83"
- 1.22" W x 2.12" H

Stock No. 21470
(HellermannTyton No. HH-20)

Application

- Harness board assemblies

CABLE TIE ANCHOR MOUNT | HellermannTyton

- 4-way entry allows cable tie to secure bundles running parallel or perpendicular
- Quick installation - secures with a single screw

Stock No. 21375

Nylon Black Stock No.	HellermannTyton Part No.	Mounting Type	Screw Size	Approx. Size	Maximum Tie Width

All dimensions in inches.

CABLE TIE MOUNTS | HellermannTyton

- Heat stabilized UV resistant nylon 6/6
- Accepts all standard ties up to 1/2" wide

Application

- Small tab contained inside the mounting hole temporarily engages threads, allowing assemblers to pre-install the mount on a stud before securing with a washer and nut (not included)

Stock No. 21255
(HellermannTyton No. HDM190HIRH4)
#10 mounting hole

CABLE TIE TOOLS

Thomas & Betts

Stock No. 538

(Thomas & Betts No. ERG50)

- Ergonomically designed cable tie tensioning tool reduces hand and wrist fatigue while securing and cutting your cable ties
- Weighs only 8½ ounces and has an adjustable handle span that results in less stress and strain with repeated use
- Quick tension adjustment at the front of the tool
- 360 degree head rotation eliminates using the tool in awkward positions and assures increased efficiency
- For 18-50 lb. ties, including Ty-Raps® and all nylon ties

See page I43 for Thomas & Betts cable ties.

HellermannTyton

Stock No. 423

(HellermannTyton No. MK9SST)

- Ergonomically designed tool comes with foam grips
- Works with stainless steel ties

HellermannTyton

Stock No. 415

(HellermannTyton No. 110-70083 EV07)

- Tension/Lock/Cut Technology delivers a “true” flush cut for a safer installation with no protrusions to damage neighboring components
- Advanced operating system of the TLC technology provides operational reliability and durability resulting in fewer repairs and extended lifespan; eases wear and tear on tool components
- Standard grip
- Tension lock-in mechanism eliminates operator ability to change tension setting for critical applications
- Can be used to fasten all variations of HellermannTyton’s 8-50 lb. cable ties selected as suitable for any application or situation

Kit Stock No. 415K

(HellermannTyton No. 110-70106)

- Includes replacement blade and screw for nose piece

HellermannTyton

Stock No. 432

EVO®9

- Tensile Strength: 50-250 lbs.
- Impact-resistant housing and durable components for extended life
- Ergonomic, comfortable design
- Easy-to-adjust tension knob offers 33 different settings for precise, repeatable applications
- Precise, clean cuts
- Design requires minimal hand force to engage trigger and cut, reducing hand and wrist strain

See pages I44-I45 for HellermannTyton cable ties.

Stock No. 410

- Easy to use economy tool for most standard size ties
- Adjustable tension and cutoff with one quick stroke
- For 18-50 lb. ties

Stock No. 411

- Lightweight and economically priced plastic tool for tensioning and cutoff of most standard size ties
- For 18-50 lb. ties

Stock No. 412

- Heavy duty tool for any size tie
- Especially useful on the heavy duty and extra heavy duty ties
- Tensions and cuts ties
- For 125-175 lb. ties

WAYTEK, INC. TERMS AND CONDITIONS |

Effective 06/01/2016

Terms

Terms are 2% in 10 days, net 30 days with approved credit. To establish credit with Waytek, Inc. (Waytek), call us at 1-800-328-2724 and ask for a credit application. Waytek requires three trade references and bank information. Visa, MasterCard, American Express and Discover Card are accepted at time of shipment only. All payments are due in U.S. Dollars. These terms and conditions supersede any prior Waytek terms and conditions.

Shipping

All shipments are FOB Chanhassen Minnesota. Guest Accounts: For each Guest account order with a ship to address in the contiguous 48 United States shipping Ground, shipping charges will be based on the combined weight of all Waytek in-stock items included in that order up to 100 pounds. All Other shipping methods cost and duties (if any) will be prepaid by Waytek and added as line items to your Waytek invoice. All shipping costs and duties are the responsibility of the Guest account. Guest accounts orders 100 pounds and over, Guest account orders requesting other than Ground shipping or Guest account orders with a ship to address outside the contiguous 48 United States will be subject to the carriers then current published rates

All non-Guest accounts: Waytek may ship via UPS, FedEx or common carrier per your request. All shipping costs and duties for orders shipped via UPS and FedEx will be prepaid by Waytek and such amounts will be added as line items to your Waytek invoice. All shipping costs and duties are the responsibility of the purchaser. Shipments via other common carriers are shipped freight collect. Orders over 60 pounds and/or bulky items are generally shipped via common carrier. Same day shipment is generally available on most in-stock products if orders are received by Waytek before 5 p.m. Eastern Time. Expedited order express service, air freight and other premium shipping services are also available at additional costs. Call Waytek at 800-328-2724 for details regarding all your shipping options.

All Customers: Inspect all shipments and report any shortages or damages to the delivery carrier immediately. Some items/products/orders ship in separate boxes.

Prices

All prices are in U.S. Dollars. Prices do not include shipping; duties; handling charges (if any); federal, state and local taxes. Call Waytek to inquire about the availability of volume and/or quantity discounts. Minnesota orders will include sales tax at a rate of 6.875% unless Waytek has a then current tax-exempt certificate on file for that purchaser. Prices are not guaranteed and are subject to change without notice. Due to the nature of the copper market, copper wire and copper cable prices may fluctuate.

Minimum Order

Orders/Releases under \$35 are subject to a \$5 handling charge. Combine your needs to minimize your charges. Some items are subject to minimum quantities. Backorders \$10 and under will be canceled.

Safety Data Sheets (SDS)

Some products have SDS information available in the product detail and description page of our website at www.waytekwire.com. Use the search function in the gray menu. Enter the stock number of the product you are interested in and go to the item description to get the link for an SDS PDF. If you need assistance, please call us at 1-800-328-2724 or email sales@waytekwire.com.

Limited Warranty

All products provided by and through Waytek are provided "as is" and with all faults. Special orders are non-cancellable and non-returnable. Except for special orders, all new, unused and undamaged product may be returned to Waytek within thirty (30) days from the date of purchase for a refund, replacement or credit to the original purchaser of the amount paid. Please call Waytek at 1-800-328-2724 for return product information prior to shipping the product(s) to Waytek. The purchaser shall bear the cost of shipping and insurance on product(s) returned to Waytek.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Disclaimer and Limitation of Liability

Waytek shall in no event be liable to the original purchaser, its customers or to any other person or organization using or involving products purchased from Waytek for loss of use, lost profits, inconvenience, property damage, personal injury or death arising out of breach of warranty, breach of contract, delay, negligence, strict tort liability or otherwise. **IN NO EVENT AND UNDER NO CIRCUMSTANCES SHALL WAYTEK BE LIABLE FOR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL LOSSES OR DAMAGES.** The entire liability of Waytek for any claim of loss, damage or expense from any cause whatsoever shall in no event exceed, at Waytek's option, the repair, replacement cost or purchase price paid for the product purchased from Waytek which directly gives rise to the claim. No action or proceeding against Waytek may be commenced more than twelve (12) months after the product from Waytek is initially shipped to the original purchaser.

All information provided by Waytek and on Waytek's website is subject to change without notice. While efforts have been made to ensure the information in this website is accurate, Waytek does not warrant the accuracy of information included in this website.

Governing Law

Waytek Terms and Conditions are governed by and construed in accordance with the laws of the State of Minnesota, without regard to or application of conflicts or law rules and principles. If for any reason a court of competent jurisdiction finds any provision or portion of the Terms and Conditions to be unenforceable, that provision will be enforced to the maximum extent permissible so as to affect its intent and the remainder of the Terms and Conditions will continue in full force and effect. Legal notices to Waytek shall be sent to: Waytek, Inc., 2440 Galpin Court, PO Box 690, Chanhassen, MN 55317, Attn: Legal Dept.

Privacy Policy

Waytek, Inc. respects the privacy of every individual who visits our website. We will not provide personal information to third parties for their commercial use. It is your responsibility to keep Waytek, Inc. user ID's and passwords which access Waytek, Inc. account information confidential. You can use the waytekwire.com website to change your Waytek, Inc. account password.
